DESIGN DIRECTIVE

To: Distribution

From: Erik Stoothoff, P.E. *EJS*
Chief Engineer

Date: June 2, 2020

RE: Environmental Regulations Directive

This design directive is intended to consolidate, reiterate, supplement, and clarify the MBTA's approach, preferences, and requirements for Environmental Regulations.

All infrastructure projects shall complete and provide up-to-date submission of the Environmental Regulations Matrix at each Phase/Submittal of the design process and incorporate all requirements and best practices as part of the design development.
