

CHELSEA

New Chelsea Commuter Rail Station Opening for Service on November 15.

Old Station Will Close at End of Service on November 14.

The MBTA is pleased to announce that the new, fully accessible Chelsea Commuter Rail station next to the final SL3 stop on Everett Avenue in Chelsea will open for service on **Monday, November 15**. The new, multimodal station will connect the Newburyport/Rockport Commuter Rail Lines to the SL3. The new station features full high-level platforms for boarding, canopies and benches, new sidewalks, security cameras, passenger assistance telephones, lighting, and more.

The current station on Arlington Street will continue operating until it is permanently closed on **Sunday, November 14**, after the last train departs at 11:11 PM.

Please plan your trip accordingly. In the event that you accidentally arrive at the old station on or after November 15, you may walk or take the SL3 to the new station. Signs and MBTA Transit Ambassadors will help guide customers as they walk along this route.

Walking directions

1. Cross Arlington Street and travel north on 6th St
2. Turn left on Spruce Street and cross the train tracks
3. Continue past MGH Chelsea and turn right on Everett Ave
4. The new station will be on your left after Santander bank, before the train tracks

Riders may also take the Silver Line 3 (SL3) between the old and new stations by taking an outbound bus from Bellingham Square to Chelsea Station.

Be safe! Please do not walk along the Commuter Rail tracks or Silver Line busway. Cross tracks and busways only at marked pedestrian walkways and look both ways before crossing.
