  - g. Public Notice of the Proposed Triennial DBE Goal
  - h. Questions and comments received during the public comment period

# **MASSACHUSETTS BAY TRANSPORTATION AUTHORITY**

## **FFY 2024 – 2026 TRIENNIAL DBE GOAL**

### **I. Introduction**

In accordance with Federal Regulation 49 CFR §26.45(f)(3), the Massachusetts Bay Transportation Authority (hereinafter referred to as “the Authority” or “the MBTA”) submits its three-year Disadvantaged Business Enterprise (DBE) overall goal for FFY 2024-2026 on projected contracting opportunities funded in whole or in part by the Federal Transit Administration (FTA) along with the methodology and supporting documentation for review.

### **II. Non-Discrimination Policy**

The Massachusetts Bay Transportation Authority’s (“MBTA”) DBE Program will not use quotas in any way in the administration of its DBE Program. MBTA’s DBE Program will not be used to discriminate against any company or group of companies. MBTA will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by federal regulations codified at 49 CFR Part 26 on the basis of race, color, sex, or national origin.

In administering its DBE Program, MBTA will not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing the accomplishment of the objectives of the DBE Program with respect to individuals of a particular race, color, sex, or national origin.

It is also MBTA Policy to:

1. Ensure nondiscrimination in the award and administration of USDOT-assisted contracts;
2. Create a level playing field on which DBEs can compete fairly for USDOT-assisted contracts;
3. Ensure that the MBTA DBE Program is narrowly tailored in accordance with applicable law;
4. Ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs;
5. Help remove barriers to the participation of DBEs in USDOT-assisted contracts;
6. Assist the development of firms that can compete successfully in the marketplace outside the DBE Program; and;
7. Promote the use of DBEs in all types of federally assisted contracts and procurement activities conducted by MBTA;

### **III. Public Participation Process**

MBTA sent out an invitation (Exhibit C) for the June 13, 2023, Public Meeting to key stakeholders, organizations, associations, the UCP and SDO Directories, and local businesses (full list in Exhibit A). MBTA published a notice of the Public Meeting on June 13, 2023, on the MBTA website at [www.MBTA.com/DBE](http://www.MBTA.com/DBE) (public notice Exhibit D). The meeting information was also published in the Boston Herald and MBTA social media pages (Exhibit C).

The MBTA Office of Diversity and Civil Rights (ODCR) hosted the Public Meeting on the proposed DBE Triennial goal on June 13, 2023, via Microsoft Teams. The meeting included Americans with Disabilities Act (ADA) accommodations of on-screen text captions. Spanish and Mandarin language translations were provided through alternate phone numbers. An estimated two hundred and twenty-two (222) business owners/stakeholders/interested parties registered and attended the Public Meeting (registration and attendance list Exhibit F). Participants were advised of the federal requirements, potential opportunities, and proposed DBE goals for the FY 2024 – 2026. Additionally, MBTA encouraged feedback from all participants and solicited questions throughout the entire presentation and responded to questions during the “Q&A” section of the agenda (full transcript in Exhibit B, presentation Exhibit E).

MBTA consulted with minority, women, and general contractor groups, community organizations, and other trade and industry organizations/associations on the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and MBTA efforts to establish a level playing field for the participation of DBEs. The consultative process was conducted from May 31, 2023, through June 12, 2023, and provided key information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and MBTA’s efforts to establish a level playing field for the participation of DBEs. Out of the eighteen (18) stakeholder associations contacted (Exhibit A), interviews were documented with six (6) associations.

### **IV. Overall Triennial DBE Goal**

In accordance with USDOT regulation 49 CFR Part 26, the MBTA has established a goal of awarding twenty percent (22%) of the value of federally funded contracts to DBEs during FFYs 2024-2026 (exclusive of FTA funds to be used for the purchase of transit vehicles). Eighteen percent (18%) of the goal will be achieved through race-conscious means and four percent (4%) through race-neutral means. MBTA expects that DBEs and other small businesses will be awarded contracts and subcontracts valued at just over \$405 million.

The purpose of the DBE Program is to create a “level-playing field” for business enterprises that are minority-owned and operated by socially and economically disadvantaged individuals by encouraging their participation in federally funded contracts. Women and minorities are presumed to be socially and economically disadvantaged individuals, although this presumption may be rebutted.

A principal goal of the regulations is to generate increased opportunities for DBEs and potential DBEs to participate in federally funded projects while using narrowly tailored means to enhance

such opportunities that do not unduly burden non-DBEs. In order to achieve that goal, the regulations require recipients of federal funds to establish goals for DBE participation that accurately reflect the level of DBE participation that could be expected, assuming a level playing field. This expected level of DBE participation is to be determined using a two-step process.

## **V. Methodology and Rationale**

To achieve the goal, MBTA is required to establish goals for DBE participation that accurately reflect the level of DBE participation that could be expected, assuming a level playing field. Consistent with the requirements of 49 CFR Part 26, recipients of federal assistance should include a projection of the DBE participation anticipated during each fiscal year covered by the project goal. This expected level of DBE participation is to be determined using a two-step process: Step 1 determines the base figure for the relative availability of DBEs, and once the base figure has been calculated, Step 2 requires MBTA to examine all available evidence in its jurisdiction to determine what adjustment, if any, is needed to the base figure in order to arrive at its overall goal.

### **VI. Step 1: Base Figure Calculation**

#### **a. Selection of the Local Market Area**

As defined by the USDOT goal-setting tips, the local market area is the area in which the substantial majority of the contractors and subcontractors with which MBTA does business are located, and the area in which MBTA spends the substantial majority of its contracting dollars. Since most of the firms doing business with MBTA are located within all or parts of the Commonwealth, the statistical area was selected as the Commonwealth of Massachusetts.

#### **b. Identifying Contracting Opportunities**

After identifying the MBTA market area, the next effort focused on identifying potential contracting opportunities. In addition to considering the anticipated contracting opportunities for the upcoming Triennial period, MBTA also reviewed contracting activities that occurred over the preceding Triennial timeframe. The purpose of this review was to identify both positive and negative activities that could be built upon and continued.

It was noted that the FTA-funded portion of work will be substantially impacted during the Triennial Period (2024-2026) in dollar value due to the completion of the MBTA Green Line Extension Program (GLX). MBTA estimates that FTA-funded contracts and subcontracts will result in awards valued at \$1,841,567,043. Of that amount, MBTA estimates that \$405,144,749 will be awarded to DBEs, in contracts and subcontracts.

The following Tables show the value of contracting opportunities and the primary NAICS codes associated with those opportunities. Table #1 shows the projects to be undertaken with FTA-funded support over the next three years. Table #2 shows the NAICS codes wherein the greatest level of contracting is likely to occur.

**Table 1 FFY 2024 – 2026 FTA-Funded Projects**

<b>Project Description</b>	<b>Sum of FY24</b>	<b>Sum of FY25</b>	<b>Sum of FY26</b>	<b>FFY24 - 26 Total (Federal)</b>

	541620	Environmental Consulting Services

c. Identification of Ready, Willing, and Able DBEs

Federal regulations codified at 49 CFR Part 26 state that the number of ready, willing, and able DBEs may be calculated using any valid scientific approach, and suggest, as possible methods, using comparisons between DBE directories and census bureau data, comparisons between lists of DBE and non-DBE bidders, and the results of disparity studies. For the FFY 2024-2026 Triennial period, MBTA is utilizing “live” data, as represented by the current number of DBE firms certified to do business with the Commonwealth of Massachusetts and accounted for in the Massachusetts Unified Certification Program (UCP), as documented in Exhibit G. Not all DBE firms are certified in a single area of expertise; many DBE firms work under multiple NAICS codes approved by the Massachusetts UCP. Therefore, the methodology for developing the goal included a raw count of all firms noted within the NAICS codes identified in Table #2 above. It should be noted that the Massachusetts UCP DBE Directory includes Massachusetts-based firms, as well as out-of-state firms that are certified as DBEs in Massachusetts. The USDOT DBE Program is a nationwide program. Therefore, it was presumed for this effort that if a DBE firm seeks certification with the Massachusetts UCP, it should be included in the calculation of ready, willing, and able DBEs, notwithstanding that its principal place of business may be located outside of the Commonwealth

of Massachusetts which is defined as the MBTA market area. Consistent with that approach, the base data for DBEs is the Massachusetts UCP Directory. The Massachusetts UCP Directory was utilized to identify ready, willing, and able DBE firms within MBTA’s local market area. Table #4 shows the projected number of ready, willing, and able DBE firms operating within the NAICS codes anticipated to be solicited for contracting opportunities with MBTA for the FFY 2024 – 2026 Triennial period.

d. Identification of All Firms in the Commonwealth of Massachusetts Statistical Area

MBTA used the most recent available data to identify the total number of Massachusetts-based firms in each NAICS code-specific industry group. Specifically, MBTA relied upon the 2017 U.S. Census County Business Patterns data for the Commonwealth of Massachusetts. Table #3 shows the number of available firms in the Commonwealth of Massachusetts (MBTA Market Area) by the relevant NAICS codes. Census data documented in Exhibit I.

**Table 3 Examples of Relative Ability for DBEs for Key NAICS Codes**

NAICS Code	NAICS Title	Certified DBEs	Total Firms	% DBE Only
541611	Administrative Management and General Management Consulting Services	149	1627	9.16%
238220	Plumbing, Heating, and Air-Conditioning Contractors	11	3216	0.34%
238330	Flooring Contractors	9	360	2.50%
237310	Highway, Street, and Bridge Construction	81	231	35.06%
237990	Other Heavy and Civil Engineering Construction	30	89	33.71%
541620	Environmental Consulting Services	54	270	20.00%
541512	Computer Systems Design Services	86	1011	8.51%
238110	Poured Concrete Foundation and Structure Contractors	31	323	9.60%
238910	Site Preparation Contractors	67	1023	6.55%
238130	Framing Contractors	17	291	5.84%
238140	Masonry Contractors	26	539	4.82%
518210	Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services	10	413	2.42%
238210	Electrical Contractors and Other Wiring Installation Contractors	44	2392	1.84%
238290	Other Building Equipment Contractors	8	160	5.00%
238310	Drywall and Insulation Contractors	18	453	3.97%
541330	Engineering Services	128	1366	9.37%
238350	Finish Carpentry Contractors	24	808	2.97%
238320	Painting and Wall Covering Contractors	40	1076	3.72%
238340	Tile and Terrazzo Contractors	4	168	2.38%
238390	Other Building Finishing Contractors	12	131	9.16%
238120	Structural Steel and Precast Concrete Contractors	22	50	44.00%
541614	Process, Physical Distribution, and Logistics Consulting Services	68	178	38.20%
541360	Geophysical Surveying and Mapping Services	4	5	80.00%
236210	Industrial Building Construction	12	44	27.27%
237130	Power and Communication Line and Related Structures Construction	6	89	6.74%
541350	Building Inspection Services	8	122	6.56%

## Weighting of Relative Availability

After identifying the available work, assigning NAICS codes to each area of opportunity, identifying ready, willing, and able DBEs in the MBTA market area, and obtaining the total number of firms in the Commonwealth of Massachusetts from the Census County Business Patterns data for each NAICS code, MBTA conducted a weighted calculation of the opportunities: table #3 and Table #4 document calculations made by MBTA. The relative availability figure, shown in the last column in Table #3, is a representation (percentage) of the number of DBEs that MBTA anticipates will be able to respond to an opportunity to participate in a contract based on the total number of firms in that NAICS code. The weighted base figure, shown in the final row of the final column of Table #4, represents the level of participation of DBE firms, by project, based on the anticipated value of FTA-funded contract dollars.

**Table 4 Step 1 Base Figure Calculation with Weighting by Projected 2024-26 Spending**

Project Description	Sum of FY24	Sum of FY25	Sum of FY26	FFY24 - 26 Total (Federal)	Step 1 Calculation	Weighting
Bridge and Tunnel	\$113,491,890.00	\$134,464,490.00	\$153,458,293.00	\$401,414,673.00	21.66%	4.72%
Business and Operational Support	\$6,801,970.00	\$2,074,461.00	\$107,640.00	\$8,984,071.00	18.03%	0.09%
Guideway, Signal, and Power	\$249,106,969.99	\$213,976,951.43	\$182,189,828.00	\$645,273,749.42	27.14%	9.51%
Maintenance and Administrative Facilities	\$172,503,171.04	\$135,511,742.19	\$50,696,580.00	\$358,711,493.23	10.18%	1.98%
Passenger Facilities	\$173,259,866.15	\$131,478,558.00	\$61,793,300.06	\$366,531,724.21	8.29%	1.65%
Technology and Innovation	\$26,731,500.00	\$33,763,479.00	\$156,354.00	\$60,651,333.00	21.19%	0.70%
Federal Total	\$741,895,367.18	\$651,269,681.62	\$448,401,995.06	\$1,841,567,043.86		18.65%

## Final Base Figure Calculation

Pursuant to federal regulations codified at 49 CFR Part 26, calculating the base figure entails dividing the number of DBEs ready, willing, and able to perform work in a particular industry, in the designated market area, by the total number of firms ready, willing, and able to perform work in that industry, for that specified region. MBTA determined the weighted Base Figure by multiplying the estimated weight or percentage of spend in a specific NAICS code by actual DBE availability. Utilizing this methodology, MBTA determined that the weighted Base Figure is 18.65%.

## VII. Step 2: Adjustment to the Base Figure

The base figure itself is merely an approximation of the general availability of DBEs and potential DBEs. Federal regulations codified at 49 CFR Part 26 allows MBTA to adjust the base figure to refine and better reflect the actual availability of DBEs and prospective DBEs that are ready,

willing, and able to perform work on FTA-funded contracts made available through MBTA. Under USDOT regulations, while an adjustment is not mandated, MBTA can consider all evidence available to determine whether such an adjustment is warranted. In order to determine whether such an adjustment is appropriate, MBTA considered several relevant factors. The adjustments to the Base Figure included consideration of the following:

- Consideration of the number of prospective DBE firms in the MBTA Market Area based on certified minority and women business enterprises (MWBEs) in the Massachusetts Supplier Diversity Office (SDO)
  - Absence of recent Disparity Study Findings for the Commonwealth of Massachusetts
  - Consideration of the percentage of DBE firms among recent bidders on construction and professional service firms on contracts for the State of Massachusetts Department of Transportation
  - Accounting for any additional factors
- a. Consideration of the number of prospective DBE Firms in the MBTA Market Area

As mentioned in Section VI a. above – Step 1: Base Figure Calculation, the Market Area defined for MBTA has been defined as the Commonwealth of Massachusetts. In order to incorporate the presence of MWBEs that are likely to be eligible for certification into the DBE Program, MBTA took into consideration the number of MWBE companies certified in the Massachusetts SDO as documented in Exhibit H. This calculation can only serve to help MBTA assess whether there is the possibility that firms that are eligible to be certified as DBEs and are currently not certified as DBES are in the relevant market area. MBTA took into consideration the number of MWSBE firms that are certifiable as DBEs, but that are not currently certified by the Massachusetts UCP. These firms should therefore be considered in the MBTA goal development methodology.

- b. Consideration of Disparity Study Findings for the Commonwealth of Massachusetts

Federal regulations codified at 49 CFR Part 26 recommends referencing disparity studies when calculating a recipient's goal and developing a goal methodology. MBTA does not have a recent disparity study in or for the Massachusetts area.

- c. Consideration of recent bidders to MBTA construction and professional services contracts

MBTA does not currently maintain a comprehensive bidder's list. Accordingly, MBTA elected not to use this data as part of the Step Two adjustment process.

- d. Adjustment to DBE Goal - Accounting for Additional Factors

In summary, the Step One Assessment resulted in a spending-weighted target of **19%** of upcoming contracting activity that might be reasonably established for DBE participation. The goal was weighted by the expected spending by NAICS codes. Additional factors are then taken into consideration, including prospective DBEs in the MBTA Market Area that are currently certified MWBEs in the Massachusetts SDO. Table 5 shows the prospective DBEs from the SDO added to the numerator. The new weighted average with the MWBEs added to the numerator is **39%**.

**Table 5 Step 2 Goal with Prospective DBEs Added**

<b>Average of (DBE+MWBE)/MA Census</b>	<b>Sum of FY24</b>	<b>Sum of FY25</b>	<b>Sum of FY26</b>	
<b>Bridge and Tunnel</b>	6.70%	9.04%	14.99%	
<b>Business and Operational Support</b>	0.31%	0.11%	0.01%	
<b>Guideway, Signal, and Power</b>	18.58%	18.18%	22.48%	
<b>Maintenance and Administrative Facilities</b>	4.89%	4.37%	2.38%	
<b>Passenger Facilities</b>	4.31%	3.72%	2.54%	
<b>Technology and Innovation</b>	1.81%	2.61%	0.02%	
	36.59%	38.03%	42.41%	39.01%

MBTA’s most recently established Triennial Goal was 20% for Triennial Period FFY 2021 - 2023. The estimated participation for the same Triennial Period was 20%. When averaged with the 39.01% step 2 figure, the resulting average is 29.5%. **With the intent of leading the marketplace, continuing to build the program, and considering the previous goal, the recommended goal is 22%.** MBTA contends that this goal will be substantive enough to encourage the utilization of available DBE firms that currently seek to do business with MBTA, as well as aggressive enough to invite non-certified MWBEs to enter the Massachusetts UCP as a means for growing their companies.

**VIII. Impact of Key Stakeholder and DBE Feedback**

During the public comment period, MBTA received feedback during the public meeting, as well as directly by email and phone, from key stakeholders and DBEs. Key themes in the feedback (see Exhibits B) include the: complexity of and resources required for MBTA’s procurement, contracting, and payment processes; availability of contracting opportunities for DBEs, technical assistance for DBEs, particularly for RFPs/bids; availability of DBE’s with capability and capacity; challenges of the certification process; challenges of bonding and financial prequalification requirements; the DBE Program monitoring process; availability of the meeting recording/presentation, variations in goal by sector (e.g. design/professional services); and difficulty for new/emerging firms to get business without previous experience. All feedback was reviewed and considered in developing the final goal.

**IX. Estimated Race-Neutral and Race-Conscious Participation**

Under USDOT regulations, MBTA must meet the DBE participation goal using narrowly tailored activities that do not unduly burden non-DBEs. To fulfill this obligation, MBTA is required to achieve the DBE participation goal to the greatest extent possible through the use of race-neutral means. Race-conscious means may be used only to the extent needed to meet whatever portion of the DBE participation goal cannot be met through race-neutral means.

The race-neutral components of the MBTA DBE Program reflect efforts to reach out and assist companies in ways that are available to all businesses, including minority and women-owned businesses, in the MBTA service area. Race-neutral efforts include:

- An effective/aggressive outreach program targeted at small businesses, including DBE firms;
- Coordinated technical and financial assistance programs;
- Monitoring mechanisms to collect program evaluation data;
- Accounting for DBE participation obtained through subcontracting on prime contracts without DBE goals; and
- Awards of prime contracts to DBEs.

Based on the proportion of the historical race-conscious vs. race-neutral, the goal for the upcoming Triennial period will be assigned as follows:

- Race-conscious participation – 18%
- Race-neutral participation – 4%

**X. Exhibits**

- A. List of organizations invited to the Public Meeting and contacted for Key Stakeholder interviews
- B. Public Meeting Transcript
- C. Public Meeting Invite Print and Social Media
- D. Public Notice of the Proposed Triennial DBE Goal

## Exhibit B

### Transcript for June 13, 2023 Public Meeting MBTA Triennial DBE Goal Methodology FY 2024-2026

1:13:7.670 --> 1:13:22.590

Umland, Wystan

Well, then, without further ado, I will begin by saying good morning, everyone, and thank you for joining us for this virtual presentation to present and discuss the methodology supporting the MBTA's upcoming triennial DBE goal.

1:13:24.10 --> 1:13:30.650

Umland, Wystan

My name is Winston Inland and I'm the assistant director of federal programs and the MBTA S Office of Diversity and Civil Rights.

1:13:31.720 --> 1:13:51.720

Umland, Wystan

We'll be hearing from or we'll be hearing opening remarks from MBTA general manager Phillip Eng, followed by Mass Dot, assistant secretary for the Office of Diversity and Civil Rights, and the MBTA DBE Liaison Officer Julian Times, who will be presenting the methodology.

1:13:52.990 --> 1:14:9.930

Umland, Wystan

Uh, following Mr Times will be MBTA chief of capital programs Maureen McDonough, who will be talking about potential upcoming contract opportunities now before I hand things over to the GM, I would like to get a few housekeeping items out of the way.

1:14:11.130 --> 1:14:26.870

Umland, Wystan

Uh, first, this meeting and the question and comments is being recorded and will be posted on the disadvantaged business enterprise page on mbta.com within 5 business days after the meeting ends.

1:14:27.970 --> 1:14:40.620

Umland, Wystan

Additionally, ohh the question in comment session after Chief McDonough presentation, we ask that you hold your questions and comments until then, ohm.

1:14:40.660 --> 1:14:45.550

Umland, Wystan

So feel free to use the chat at that point and.

1:14:47.0 --> 1:14:55.890

Umland, Wystan

The hand function, the raise hand of function if you use that we can answer in order and I will be repeating this.

1:14:56.320 --> 1:14:59.930

Umland, Wystan

Umm, please don't be upset if we missed her questions or comments.

1:14:58.890 --> 1:15:1.270

Tynes, Julian (DOT)

Hello. Yes.

1:15:0.300 --> 1:15:6.530

Umland, Wystan

There will be a website that I'll tell you about later on that you can submit anything we may have missed.

1:15:8.130 --> 1:15:19.700

Umland, Wystan

So all that being said, I will hand the meeting off to MBTA general manager Phillip Eng, GM uh, take it away.

1:15:31.310 --> 1:15:32.70

Umland, Wystan

You're muted, Sir.

1:16:2.660 --> 1:16:3.380

McDonough, Maureen

Seems as if we.

1:16:5.970 --> 1:16:9.350

McDonough, Maureen

We might have some audio issues, so everyone just hang in for a minute.

1:16:9.930 --> 1:16:10.110

Umland, Wystan

Yep.

1:18:30.630 --> 1:18:31.800

Eng, Phillip

Hey, Justin, can you hear me?

1:18:34.130 --> 1:18:34.520

Eng, Phillip

OK.

1:18:34.530 --> 1:18:36.860

Eng, Phillip

You're coming as muted on our end over here.

1:18:38.900 --> 1:18:40.100

Umland, Wystan

Ah, can you hear me?

1:18:40.560 --> 1:18:41.10

Eng, Phillip

Yes.

1:18:41.20 --> 1:18:42.670

Eng, Phillip

And I think Julia's been muted as well.

1:18:42.680 --> 1:18:44.50

Eng, Phillip

Well, so we we couldn't hear him.

1:18:44.60 --> 1:18:45.440

Eng, Phillip

I I think he was speaking as well.

1:18:49.930 --> 1:18:50.970

Umland, Wystan

GM Umm, can you hear me?

1:18:51.650 --> 1:18:52.860

Eng, Phillip

We can hear you now, yes.

1:18:53.110 --> 1:18:56.870

Umland, Wystan

Alright, if you are, if you have your remarks ready.

1:18:57.860 --> 1:18:58.800

Umland, Wystan

Umm, we are ready to go.

1:19:0.30 --> 1:19:6.460

Eng, Phillip

Well, apologies for the delay and the technical difficulties here, but thank you Weston and good afternoon everyone.

1:19:7.70 --> 1:19:8.550

Eng, Phillip

It is a pleasure to be here.

1:19:8.990 --> 1:19:9.970

Eng, Phillip

I enabled the office.

1:19:10.90 --> 1:19:12.960

Eng, Phillip

Brief opening remarks and welcoming remarks for everyone.

1:19:13.390 --> 1:19:28.520

Eng, Phillip

The MBTA is committed to diversity, equity, and inclusion, and in this commitment we are working hard

to ensure the EI is a foundational element of the TV, such as our processes, our decision making, our workforce and everything that we do.

1:19:29.140 --> 1:19:30.960

Eng, Phillip

I'm very proud of the progress we're making.

1:19:31.300 --> 1:19:38.680

Eng, Phillip

Nevertheless, we all recognize there is more to do to elevate our goals, and then the strive earnestly to meet them or exceed them.

1:19:39.610 --> 1:19:45.660

Eng, Phillip

One of the agencies leading and very establishing components of TDI is the DBE program.

1:19:46.160 --> 1:19:53.480

Eng, Phillip

The disadvantaged business Enterprise program has been a key long standing component of the T's responsibilities with our federal partners.

1:19:53.850 --> 1:20:8.960

Eng, Phillip

But beyond that, fundamentally it's a good and meaningful program to employ at the MBTA period, every three years, we revised DBE goals with the assistance of the Office of Diversity and Civil Rights, and that is the reason we are here today.

1:20:9.590 --> 1:20:21.300

Eng, Phillip

To begin, I want to express our deepest appreciation for the contractors, subcontractors, consultants, engineers and architects, and all of the professionals and business partners that make up the community of vendors.

1:20:21.590 --> 1:20:27.540

Eng, Phillip

And our industry that we count on for helping us to meet our DBE goals for the previous triennial period.

1:20:28.300 --> 1:20:42.310

Eng, Phillip

I'm proud of our continued work on the DB program and we're grateful for OCR's compliance and regulatory assistance on the DBE program, OCR Assistant Secretary Julian Times will be reviewing the process and steps momentarily.

1:20:42.700 --> 1:20:48.530

Eng, Phillip

We know then it bracing the feedback and input that the public provides is an important step in our goal setting process.

1:20:48.840 --> 1:20:51.700

Eng, Phillip

The results in a thriving and successful DB program.

1:20:52.470 --> 1:20:56.860

Eng, Phillip

Thank you for joining us today for your participation in this important next step.

1:20:57.290 --> 1:21:6.640

Eng, Phillip

I look forward to working with our DB partners for the next triennial period and beyond that, and with that I'll hand this back over to Whiston and the proceedings can move forward.

1:21:6.750 --> 1:21:7.170

Eng, Phillip

Thank you.

1:21:9.310 --> 1:21:10.400

Umland, Wystan

Thank you, GM.

1:21:10.630 --> 1:21:16.830

Umland, Wystan

I'm always a pleasure to hear from you and thank you from OCR for your continued support and all that we do.

1:21:18.970 --> 1:21:29.740

Umland, Wystan

And with that, I will now hand the floor over to Assistant Secretary Times to go over the methodology and our new Trinity will goal.

1:21:29.800 --> 1:21:30.770

Umland, Wystan

Julie, the floor is yours.

1:21:35.130 --> 1:21:37.380

Tynes, Julian (DOT)

Thank you, Whiston and thank you, GM.

1:21:37.930 --> 1:21:39.460

Tynes, Julian (DOT)

My name is Julian Tides.

1:21:39.470 --> 1:21:56.850

Tynes, Julian (DOT)

As stated, I'm the assistant secretary for the Office of Diversity and Civil Rights, and as many of you know, where the ones responsible for the development of the DBE goal and of ensuring that compliance and administration of the DB program.

1:21:58.20 --> 1:22:8.370

Tynes, Julian (DOT)

Once again, I would like to reiterate the GM's thanks to the various people that we work with that helped us to achieve the goal over the last three years.

1:22:9.0 --> 1:22:24.270

Tynes, Julian (DOT)

The various contractors, the subcontractors in various areas and the members of the public and the hard working people of the Massachusetts Bay Transportation Authority, we could not have done it without everyone working together as a team.

1:22:25.730 --> 1:22:36.120

Tynes, Julian (DOT)

Unfortunately in Umm, reflecting some of the thoughts of Secretary Fiandaca because of technical difficulties, she wasn't able to come and make the meeting.

1:22:36.390 --> 1:22:40.560

Tynes, Julian (DOT)

But again, she tried to get in, but again she sends her thanks.

1:22:40.670 --> 1:22:47.250

Tynes, Julian (DOT)

And as you can see, she left a actually left a chat, a message in the trap chat there.

1:22:48.620 --> 1:22:54.550

Tynes, Julian (DOT)

And so hopefully you all get to see that message and see the secretary's thoughts.

1:22:55.580 --> 1:22:58.270

Tynes, Julian (DOT)

But I'm going to now go forward.

1:22:58.660 --> 1:23:17.70

Tynes, Julian (DOT)

And so, first of all, I'm going to speak about the disadvantaged business enterprise or what we call the DBE program, both the background of the program itself, the highlights of it, just objectives, the program requirements and then we're going to go into the goal setting methodology and rationale.

1:23:17.460 --> 1:23:34.110

Tynes, Julian (DOT)

And after we go through all of those things at that point, we will introduce the proposed DBE triennial goal and there will be a point where after I'm speaking or Miss, McDonald will speak about the DBE program opportunities that will be coming up.

1:23:34.300 --> 1:23:37.290

Tynes, Julian (DOT)

And I'm sure many will have questions about that.

1:23:37.300 --> 1:23:40.880

Tynes, Julian (DOT)

And so we will have also an opportunity for questions and comments.

1:23:41.620 --> 1:23:51.100

Tynes, Julian (DOT)

Ohh, one of the things is this meeting is about the MBTA Triennial goal and things related to that.

1:23:51.170 --> 1:24:10.420

Tynes, Julian (DOT)

There may be other questions that you have that are not related to the DB Triennial goal in the methodology, and so for that we would ask that you go and direct those questions to us and we'll have contact information in which you can contact our office to have those questions answered.

1:24:10.430 --> 1:24:13.630

Tynes, Julian (DOT)

Those concerns responded to alright.

1:24:13.640 --> 1:24:15.420

Tynes, Julian (DOT)

May I have the next next slide please?

1:24:16.630 --> 1:24:17.60

Tynes, Julian (DOT)

All right.

1:24:17.70 --> 1:24:34.970

Tynes, Julian (DOT)

So first of all, for background purposes, as a recipient of federal funds and more specifically of US DOT funding, the Massachusetts Bay Transportation Authority, better known as the MBTA's, required to have a DBE program for it's federally funded projects.

1:24:34.980 --> 1:24:36.790

Tynes, Julian (DOT)

Now this this is no different.

1:24:36.800 --> 1:24:41.460

Tynes, Julian (DOT)

For example, the MBTA gets its funding from the FTA as you know.

1:24:42.80 --> 1:24:45.90

Tynes, Julian (DOT)

Mass DOT highway gets it from the FHWA.

1:24:45.100 --> 1:24:47.630

Tynes, Julian (DOT)

Both are required to have a DBE program.

1:24:47.680 --> 1:24:58.940

Tynes, Julian (DOT)

As stated, all US DOT programs that receive federal funding or required to have one now the DB program only applies to federally funded projects.

1:24:58.950 --> 1:25:5.970

Tynes, Julian (DOT)

In other words, those projects that are funded by US DOT next page, please.

1:25:9.530 --> 1:25:20.980

Tynes, Julian (DOT)

Now the thing about the DB program one, it conforms with the regulations of the Department of Transportation's 49 Code of Federal Regulations.

1:25:21.490 --> 1:25:36.750

Tynes, Julian (DOT)

Many times you'll hear people refer to it as 49 CFR and of that code part 26 and the purpose of it is to ensure the administration monitoring and implementation requirements set forth in 49.

1:25:36.760 --> 1:25:49.140

Tynes, Julian (DOT)

CFR part 26 and so as part of that we utilize a Triennial 3 year DBE goal to achieve DB participation for federally funded projects.

1:25:51.810 --> 1:25:52.570

Tynes, Julian (DOT)

Next please.

1:25:55.550 --> 1:26:0.450

Tynes, Julian (DOT)

Now the DB program objectives, one of the primary, if not the primary.

1:26:1.850 --> 1:26:8.220

Tynes, Julian (DOT)

Objective of the DB program is to create a level playing field for expected DB participation.

1:26:8.310 --> 1:26:17.300

Tynes, Julian (DOT)

In other words, to ensure that all people in the market get that level playing field, all of the businesses get a level playing field.

1:26:17.850 --> 1:26:30.730

Tynes, Julian (DOT)

And so, because we're looking at a level playing field, the goals when we set the goals must be clearly tied to and most importantly, narrowly tailored to the local market.

1:26:31.110 --> 1:26:42.150

Tynes, Julian (DOT)

So in other words, the DBE goal, for example, in Utah's not going to be the same as it is in Massachusetts or in New York and so on and so forth.

1:26:42.900 --> 1:26:57.270

Tynes, Julian (DOT)

And one of the things we're required to do is all recipients are is we're is that we use and we can use contracts specific goals based on identified opportunities and DB availability to meet the try.

1:26:57.280 --> 1:27:38.160

Tynes, Julian (DOT)

And you'll goal, in other words, the DBE triennial goal, when we look at it, it comes from and as you'll see, we're looking at work, we look at coming forward in the contracts, the individual projects and what the goal is on those projects, those projects in turn, the goal on those projects are based on one, the scopes of work, the contract specific goals is said and the identified opportunities within those scopes of work, the opportunities for DBE, what's the percentage of availability for DB in quotas and set asides are not allowed based on race or gender.

1:27:39.380 --> 1:27:48.780

Tynes, Julian (DOT)

The DB program many times will hear people say ohh the DPE quota is or this much is set aside for DB.

1:27:50.410 --> 1:27:51.980

Tynes, Julian (DOT)

Actually that's not correct.

1:27:52.580 --> 1:28:0.960

Tynes, Julian (DOT)

The DB program is a best faith, a good faith efforts programmer, best faith, or good faith efforts program.

1:28:1.770 --> 1:28:10.460

Tynes, Julian (DOT)

The idea being that the the contractors and those that are trying to fill the goal, they're using good faith efforts to achieve the goal.

1:28:10.470 --> 1:28:13.740

Tynes, Julian (DOT)

However, there is not a per se quota.

1:28:17.50 --> 1:28:17.760

Tynes, Julian (DOT)

Next please.

1:28:21.220 --> 1:28:32.810

Tynes, Julian (DOT)

Now the triannual goal that we're talking about for the MBTA will be established for the federally funded projects for the federal fiscal years of 2024 to 2026.

1:28:34.140 --> 1:28:52.360

Tynes, Julian (DOT)

And the DB program reporting periods correspond with the federal fiscal year and the reason those dates are there is because many times when people think of the fiscal year, we think of July 1st to June 30th for the state that is the federal fiscal year.

1:28:52.370 --> 1:28:58.0

Tynes, Julian (DOT)

However, the federal fiscal year starts in October 1st and ends in September 30th.

1:28:59.850 --> 1:29:14.610

Tynes, Julian (DOT)

Now, as I was speaking before I spoke about contract goals and narrowly as it states, there are narrowly tailored contracts, specific goal setting process will be in his used on a contract by contract basis.

1:29:15.140 --> 1:29:17.30

Tynes, Julian (DOT)

The reason why that's important is this.

1:29:17.600 --> 1:29:28.870

Tynes, Julian (DOT)

Many times people will see a DBE goal of a certain percentage for the triennial period, and they will assume that that means every contract has to be at that goal.

1:29:29.430 --> 1:29:30.690

Tynes, Julian (DOT)

That's not correct.

1:29:31.240 --> 1:29:34.340

Tynes, Julian (DOT)

The contracts are done on individual basis.

1:29:34.350 --> 1:29:36.880

Tynes, Julian (DOT)

The projects are done on an individual basis.

1:29:36.990 --> 1:29:52.320

Tynes, Julian (DOT)

As I stated before, based on the scopes of work within that contract and the availability of work within that contract and so as different projects have different scopes of work, and you know it's different things, it's completely different thing.

1:29:52.330 --> 1:30:7.150

Tynes, Julian (DOT)

Doing rails for example and building a bridge or building a brand new a station, it's going to be different scopes of work and with the different scopes of work there's going to be different availability.

1:30:7.160 --> 1:30:17.0

Tynes, Julian (DOT)

That contract for each of those projects will be different, but it will be based on the availability within those scopes of work next.

1:30:21.270 --> 1:30:25.160

Tynes, Julian (DOT)

Now this is when we're required to publish the triennial go.

1:30:25.990 --> 1:30:39.890

Tynes, Julian (DOT)

The notice was placed on the MBTA website and it's on there today and the notification to the public through local organizations and media today was the official start of the notification.

1:30:39.900 --> 1:30:54.10

Tynes, Julian (DOT)

Now, obviously there was some notification of having this meeting ahead of time, but today is the first day when we're going to go and release to the public to propose DBE goal for the triennial period.

1:30:54.540 --> 1:30:57.500

Tynes, Julian (DOT)

Now, there's a 45 day review and comment period.

1:30:58.640 --> 1:31:7.920

Tynes, Julian (DOT)

The comment period, the review and comment period starts today, June 13th, and it ends on July 27th, 2023.

1:31:8.730 --> 1:31:12.730

Tynes, Julian (DOT)

Our deadline for submitting the DB Eagle is August 1st.

1:31:14.180 --> 1:31:23.230

Tynes, Julian (DOT)

We've now during that period we'll be looking for comments from the public, comments from the interested parties that we work with.

1:31:23.240 --> 1:31:32.170

Tynes, Julian (DOT)

So we expect contractors, individual contractors and contracting Organization organizations of such to give us their feedback.

1:31:32.180 --> 1:31:54.740

Tynes, Julian (DOT)

We expect minority firms, we expect DBE organizations representing DB, so on and so forth to go give their review their comment on the DBE goal, if they think it should be adjusted, the reasons why and we take all of that into consideration before we go and submit the find.

1:31:54.750 --> 1:31:58.140

Tynes, Julian (DOT)

The goal, which will be as stated before August 1st.

1:31:59.0 --> 1:32:9.270

Tynes, Julian (DOT)

Ohh this year now the reason I want to emphasize that is the same reason why I wanted to emphasize that the goal that we're going to introduce today is the proposed goal.

1:32:9.360 --> 1:32:18.40

Tynes, Julian (DOT)

So your comments, your feedback is very important as we go and make the determination on the final determination before we submit the goal.

1:32:19.380 --> 1:32:20.40

Tynes, Julian (DOT)

Next please.

1:32:23.410 --> 1:32:26.250

Tynes, Julian (DOT)

Now this is how the DB goal is established.

1:32:27.270 --> 1:32:34.800

Tynes, Julian (DOT)

One of the first things we look at is the projection of federal funds, in other words, how much money is going to be coming in, what are the projects?

1:32:34.810 --> 1:32:35.520

Tynes, Julian (DOT)

Are they coming in?

1:32:36.640 --> 1:32:38.530

Tynes, Julian (DOT)

And then how is that going to be spent?

1:32:38.940 --> 1:32:54.770

Tynes, Julian (DOT)

And so the next thing we do is we identify the broad categories of contracting supplies and service opportunities for the upcoming three year period and that excludes transit, transit, vehicle procurements, what we call TVM.

1:32:54.780 --> 1:33:4.830

Tynes, Julian (DOT)

So that doesn't include buying buses, for example, or you may have heard, you know when you hear about the MBTA replacing train cards, that doesn't include that.

1:33:5.420 --> 1:33:22.190

Tynes, Julian (DOT)

And so these are the broad areas as you can see, guideway, signal and power, passenger facilities, maintenance and administrative facilities and maintenance is always going to be an ongoing cost bridges and tunnels technology and innovation and business and operational support.

1:33:23.290 --> 1:33:32.940

Tynes, Julian (DOT)

And so that's one of the first things we do, we have to go and identify what are the broad areas where is that going to be, how much is going to go into, we believe toward each area.

1:33:33.490 --> 1:33:45.650

Tynes, Julian (DOT)

The next thing is we identify ready, willing and available DBE and this is important potential DBE and non DBE in the Commonwealth of Massachusetts.

1:33:47.60 --> 1:34:8.780

Tynes, Julian (DOT)

The reason why that's important is because as we're do as we're looking at the availability, we have to go and we have to look at, OK, total market, what is the market, what is the projected market and the percentage so that we can see alright, if we're going to establish a goal, we want it based on something reality.

1:34:8.850 --> 1:34:19.230

Tynes, Julian (DOT)

And the reason I say that sometimes I get the impression that people think that the DBE goal is like the lottery, you know, where the balls are coming and popped out.

1:34:19.240 --> 1:34:21.90

Tynes, Julian (DOT)

Ohh this will be the goal this year.

1:34:21.100 --> 1:34:22.730

Tynes, Julian (DOT)

This will be the goal for this project.

1:34:23.440 --> 1:34:30.20

Tynes, Julian (DOT)

I just want to reassure you that is not the case, that this is the process that we use next.

1:34:30.570 --> 1:34:31.250

Tynes, Julian (DOT)

Next, please.

1:34:34.860 --> 1:34:45.140

Tynes, Julian (DOT)

As stated before, one of the things we say is identify ready, willing, and available DBE potential DB and non DB and the Commonwealth of Massachusetts.

1:34:45.430 --> 1:34:54.640

Tynes, Julian (DOT)

Now one thing when I wanna clarify on that is many of you know DB certification is reciprocal.

1:34:56.50 --> 1:35:5.510

Tynes, Julian (DOT)

In other words, if a DB is for example in, I'll say Connecticut, one of the neighboring states are New Hampshire or Rhode Island.

1:35:7.270 --> 1:35:17.550

Tynes, Julian (DOT)

They have to apply for DB certification in Massachusetts, but by and large, if they're already certified in their state, their home state, they forwarded that over.

1:35:18.500 --> 1:35:19.710

Tynes, Julian (DOT)

It's reviewed quickly.

1:35:19.720 --> 1:35:20.730

Tynes, Julian (DOT)

They reviewed.

1:35:20.740 --> 1:35:38.740

Tynes, Julian (DOT)

There isn't the same level of scrutiny because there are already certified, but they do have to be certified as a DBE with the with the Massachusetts Unified Certification program to be eligible and eligible DBE for DBA purposes meeting the goal.

1:35:38.880 --> 1:35:41.830

Tynes, Julian (DOT)

And so that's why it says in the Commonwealth of Massachusetts.

1:35:41.840 --> 1:35:49.160

Tynes, Julian (DOT)

And I wanted to clarify that because many of you are aware of, you'll see debbes and they'll come from a neighboring state.

1:35:50.110 --> 1:35:53.750

Tynes, Julian (DOT)

And I didn't want people wondering, well, why is it?

1:35:53.840 --> 1:35:56.140

Tynes, Julian (DOT)

I know that that firm is in Rhode Island.

1:35:56.150 --> 1:35:59.320

Tynes, Julian (DOT)

How are they doing work in Massachusetts as a DB?

1:35:59.550 --> 1:36:4.190

Tynes, Julian (DOT)

Well, they would have gotten certified in Massachusetts also next.

1:36:6.630 --> 1:36:12.850

Tynes, Julian (DOT)

Now this first step when we're establishing the DBE goal is the base figure.

1:36:13.580 --> 1:36:27.150

Tynes, Julian (DOT)

Now the base figure is where we calculate the relative availability of DBE and so the thing we use is the first thing we do is we utilize the Massachusetts Unified Certification program.

1:36:28.350 --> 1:36:28.840

Tynes, Julian (DOT)

Yeah.

1:36:29.690 --> 1:36:35.460

Tynes, Julian (DOT)

And we do that, we divide it by the US Census data for Massachusetts firms.

1:36:35.570 --> 1:36:43.440

Tynes, Julian (DOT)

So in other words, these are the DB's with the work that we do and then this is all of the firms in Massachusetts.

1:36:43.450 --> 1:36:54.760

Tynes, Julian (DOT)

So that way we have a figure, a percentage where we know, OK, DBE's are this percentage of the overall firms in Massachusetts, but that's only the first step.

1:36:56.710 --> 1:36:57.980

Tynes, Julian (DOT)

Let's go to the second step.

1:37:0.890 --> 1:37:5.160

Tynes, Julian (DOT)

And so this next step. We do is we make adjustments to the base figure.

1:37:5.870 --> 1:37:19.120

Tynes, Julian (DOT)

Now we adjust the base figure to account for other evidence, and other evidence could be things like local market conditions, types of work on federally funded projects, and you'll see some others too.

1:37:19.290 --> 1:37:27.180

Tynes, Julian (DOT)

For example, one of the things we add is the number of prospective DBE in the Commonwealth of Massachusetts area.

1:37:27.390 --> 1:37:30.140

Tynes, Julian (DOT)

Now, how do we look at prospective DBS?

1:37:30.440 --> 1:37:37.970

Tynes, Julian (DOT)

As many of you know, for a company to be DBE, it has to be both socially and economically disadvantaged.

1:37:40.340 --> 1:37:48.420

Tynes, Julian (DOT)

And socially disadvantaged, traditionally, the way it's defined by law, is minorities and females and their identified.

1:37:48.430 --> 1:37:52.190

Tynes, Julian (DOT)

So we look at the MWBE database.

1:37:52.230 --> 1:38:9.260

Tynes, Julian (DOT)

According to the supplier diversity offices and the supply, according to that, when we look at the base figure for their availability of MWBE is 39.01% another factor we looked at?

1:38:9.270 --> 1:38:21.680

Tynes, Julian (DOT)

Ohh, before I go on from that, there's a reason why we're saying perspective DBS all and WBE are not eligible to be Debes.

1:38:21.810 --> 1:38:30.740

Tynes, Julian (DOT)

And the reason why, as I stated before, the deep, not socially disadvantaged, the person has to be also economically disadvantaged.

1:38:30.950 --> 1:38:43.410

Tynes, Julian (DOT)

And so there will be some MWBE that are not eligible because basically DBS are smaller companies, they're not big companies, they're businesses too large.

1:38:43.420 --> 1:38:54.180

Tynes, Julian (DOT)

The personal net worth of the owner, the the income and the revenue of the company may make it ineligible to be DBE, but so that's why we say perspective DBE.

1:38:55.20 --> 1:38:56.830

Tynes, Julian (DOT)

So we take that into account.

1:38:57.260 --> 1:39:3.230

Tynes, Julian (DOT)

The next thing we take into account and that's important is the substantial completion of the GLX program.

1:39:3.470 --> 1:39:6.660

Tynes, Julian (DOT)

Now some of you may ask why are you taking that into account?

1:39:6.770 --> 1:39:11.960

Tynes, Julian (DOT)

Well, the GLX program, as many of you realize and know, was a you.

1:39:13.130 --> 1:39:15.550

Tynes, Julian (DOT)

That was a lot of DB involvement in that.

1:39:16.380 --> 1:39:22.880

Tynes, Julian (DOT)

However, as that goes in scales back, there will be other projects.

1:39:23.420 --> 1:39:30.300

Tynes, Julian (DOT)

The other projects may or may not, depending on the scopes of work, have the same level of DB involvement.

1:39:30.310 --> 1:39:31.800

Tynes, Julian (DOT)

So we have to take that into account.

1:39:33.510 --> 1:39:47.130

Tynes, Julian (DOT)

And as stated before, we look at the anticipated projects over the next three federal fiscal years and then the other thing we look at is what we're doing right now.

1:39:47.300 --> 1:39:56.300

Tynes, Julian (DOT)

The discussion with the stakeholders people on this call and others who aren't on the call and the stakeholders obviously include DBE next.

1:40:0.350 --> 1:40:3.300

Tynes, Julian (DOT)

Those these are some of the factors that we strongly consider.

1:40:3.970 --> 1:40:14.540

Tynes, Julian (DOT)

As always, we have to look at the local market area for the MBTA and the availability of DBE currently working within that market area.

1:40:14.630 --> 1:40:23.200

Tynes, Julian (DOT)

That doesn't mean that their business is within the MBTA market area, but that they do work within the MBTA market area.

1:40:23.990 --> 1:40:52.180

Tynes, Julian (DOT)

And so as we said before, we the factor we consider as we, I said, when we look at the MWBE databases MWBE capable of working who may not currently be certified as DBS in Massachusetts as registered

with the SDO and those are considered in the adjustments and the reason why that's important is because many of the DBE are also MWBE.

1:40:52.690 --> 1:40:56.340

Tynes, Julian (DOT)

And so we don't want to double count them in that 39%.

1:40:56.350 --> 1:41:2.490

Tynes, Julian (DOT)

Some of them are already going to be DBE and then another factor.

1:41:2.500 --> 1:41:14.370

Tynes, Julian (DOT)

We look at it, the historical data on the past participation of DBE on similar MBTA projects and that's a factor.

1:41:14.380 --> 1:41:24.890

Tynes, Julian (DOT)

It's not the controlling factor, but it's a factor that we strongly consider because to a large degree similar projects are going to have similar scopes of work.

1:41:24.900 --> 1:41:44.920

Tynes, Julian (DOT)

Now, there may be some variation in certain areas and we obviously look at that and take that into account, but we're going to go look at that historical data because we think that gives us an accurate picture as we're trying to look forward and propels what did EB goal would be next please.

1:41:49.670 --> 1:42:4.980

Tynes, Julian (DOT)

Now the other thing we need to look at, and this is important is the availability, availability, excuse me, of ready, willing and able certified DBE capable of participating by potential subcontracting out elements.

1:42:4.990 --> 1:42:9.20

Tynes, Julian (DOT)

Now, what is the potential subcontracting elements, the scopes of work?

1:42:9.210 --> 1:42:11.500

Tynes, Julian (DOT)

It's another way of saying the scopes of work.

1:42:11.630 --> 1:42:17.660

Tynes, Julian (DOT)

Now the important thing to remember is ready, willing and able certified DBS.

1:42:17.670 --> 1:42:27.820

Tynes, Julian (DOT)

In other words, not a company that says, well, if we get this, we're going to go sign up for the DBE program, have to already be certified, they have to be ready.

1:42:28.830 --> 1:42:29.960

Tynes, Julian (DOT)

You have to be willing and able.

1:42:31.890 --> 1:42:51.340

Tynes, Julian (DOT)

Again, as I mentioned before, the scopes of work required to be performed during the upcoming period, including the budget and the realistic assessment of available DBE firms to participate in the subcontracting activity, and I spoke about the different scopes of work.

1:42:51.710 --> 1:42:57.580

Tynes, Julian (DOT)

One of the things when we look at it, we look for procurement is something that's called the next call.

1:42:57.590 --> 1:43:1.940

Tynes, Julian (DOT)

It's North American industry classification system and code eligibility.

1:43:2.200 --> 1:43:8.900

Tynes, Julian (DOT)

So in other words, when a company goes for DBE certification, they're certified in certain areas of work.

1:43:9.930 --> 1:43:24.430

Tynes, Julian (DOT)

So just grabbing a DBE if it's not the work that they do, it doesn't meet the IT does not meet the goal specifications for a project because they're not doing the work that they're certified in.

1:43:25.860 --> 1:43:29.910

Tynes, Julian (DOT)

It would be like hiring a plumber when you need electrical work.

1:43:30.400 --> 1:43:34.850

Tynes, Julian (DOT)

Well, it might be a DB plumber, but they're not doing the work.

1:43:35.20 --> 1:43:41.440

Tynes, Julian (DOT)

The scopes of work for this contract and the most important thing is they have to be ready, willing and able.

1:43:42.900 --> 1:43:43.580

Tynes, Julian (DOT)

Next, please.

1:43:47.760 --> 1:44:3.380

Tynes, Julian (DOT)

Now for a total actual DB participation, the MBTA has demonstrated average past participation levels for the last triennial period of 20%, and the current goal is we're in that year is 20%.

1:44:4.600 --> 1:44:15.200

Tynes, Julian (DOT)

Now, when past participation is averaged with the base figure 39.1%, the resulting goal is 29 1/2%.

1:44:15.770 --> 1:44:19.60

Tynes, Julian (DOT)

Now before I go to the next thing I want you to remember a few things.

1:44:19.490 --> 1:44:30.830

Tynes, Julian (DOT)

Because one of the things we talked about was of that 39% in the base figure, one, all of the MWBE are not going to be eligible for DBE.

1:44:30.840 --> 1:44:45.430

Tynes, Julian (DOT)

So that number is going to be a little higher two, some of the some of those that are eligible, some of the number also reflects companies who are MWBE's who are also DBE.

1:44:45.910 --> 1:44:48.220

Tynes, Julian (DOT)

And so we also wanna make sure they're not double count.

1:44:49.640 --> 1:45:13.190

Tynes, Julian (DOT)

And so with the intent of 1 leading the marketplace and by leading the marketplace, we're also projecting where it's going to be continuing to build the program, continuing to create that level playing field and considering the previous goal, the recommended goal, the upcoming triangle period is 22%.

1:45:15.730 --> 1:45:16.490

Tynes, Julian (DOT)

Next please.

1:45:19.140 --> 1:45:24.940

Tynes, Julian (DOT)

Now when you say, OK, the goal is 22%, how does that breakdown?

1:45:25.470 --> 1:45:44.240

Tynes, Julian (DOT)

One of the things that we do when we set a triennial goal is we have race conscious goal race and gender conscious goal and the race and gender neutral goal and that part of that, a big part of that goes to what we talked about earlier when I spoke about it being narrowly tailored.

1:45:44.870 --> 1:45:58.340

Tynes, Julian (DOT)

And so using the DSD US DOT regulations, one, we must meet the DB participation goals using narrowly tailored means that do not unduly burden non DBS.

1:45:58.950 --> 1:46:18.450

Tynes, Julian (DOT)

And so the idea is that and this is uh, requirement of the law when you're doing a race of any program that takes race, gender into account is the program must be narrowly tailored to achieve the goals of equality or of equal opportunity.

1:46:19.100 --> 1:46:31.340

Tynes, Julian (DOT)

And so to fulfill this obligation, the MBTA's required to achieve the DB participation goal to the greatest extent possible through the use of race, gender neutral means.

1:46:33.590 --> 1:46:44.440

Tynes, Julian (DOT)

Race, gender conscious means may be used only to the extent needed to meet whatever portion of the DB participation goal that cannot be met through the race.

1:46:44.450 --> 1:46:53.690

Tynes, Julian (DOT)

Gender neutral means now one of the things you'll remember that I spoke earlier about how we look at our past participation.

1:46:53.840 --> 1:47:15.140

Tynes, Julian (DOT)

So even as we're looking at the race, gender, race neutral means we also look at, OK for the last three years, four years and before that, how did we do on the race neutral because that will also give us a clue on which part of the goal should be race neutral race and which part should be race conscious next please.

1:47:20.270 --> 1:47:33.50

Tynes, Julian (DOT)

Now, in accordance with 49 CFR part 26, the goal that we're proposing that we establish would be 22% of the value of federal funded contracts to DB's.

1:47:34.610 --> 1:47:41.510

Tynes, Julian (DOT)

Now, 18% of the goal will be race, gender conscious and 4% would be race neutral conscious.

1:47:42.290 --> 1:48:31.670

Tynes, Julian (DOT)

Now some may say some may have concerns about the percentages, but again, we've looked at past past performance and we've seen that 18% as the race, gender conscious part is actually more than reasonable when we look at where the goal has meant on the race neutral means and race neutral, meaning that either the DBE wins a contract outright outright so that they didn't win that without any consideration of race or gender or meeting the goal when they were meeting with when they won the contract or what it means is that the Prime, umm, went above the DB goal.

1:48:31.680 --> 1:48:40.700

Tynes, Julian (DOT)

In other words, you have a prime, let's say the the the project goal is 17% and they bring in DBE.

1:48:40.710 --> 1:48:51.40

Tynes, Julian (DOT)

They've met the goal they've contracted, subcontracted with some DB's to meet 17% of the goal, and there's additional work and they decide to bring on another DBE.

1:48:51.80 --> 1:48:55.380

Tynes, Julian (DOT)

Now they're doing that not because they're meeting the goal, because they want to bring in that company.

1:48:55.600 --> 1:48:57.770

Tynes, Julian (DOT)

Well, that's a race neutral measure.

1:48:58.530 --> 1:49:6.460

Tynes, Julian (DOT)

And so what we've seen is that at this time race conscious measures are still very much necessary.

1:49:7.830 --> 1:49:24.620

Tynes, Julian (DOT)

And so this is the next thing that we see is the projected funding over the next for the next three years and we see is 1 billion \$841,567,043.00.

1:49:25.990 --> 1:49:36.840

Tynes, Julian (DOT)

And so with the MDA projects, is that DBE will be awarded contracts and subcontracts valued in excess of \$405 million.

1:49:36.890 --> 1:49:45.230

Tynes, Julian (DOT)

You see the exact figure now when we say projects, it's all projecting because, for example the goal is 22%.

1:49:46.660 --> 1:50:14.810

Tynes, Julian (DOT)

If if Congress were to pass, for example, within the three years, another ohh infrastructure bill and the MBTA was going to get a large increase above that \$1.8 billion, well then the amount of worded the DBE's with a 22% goal would logically be more than the \$405 million.

1:50:15.260 --> 1:50:17.490

Tynes, Julian (DOT)

On the other hand, if for some reason.

1:50:19.760 --> 1:50:28.670

Tynes, Julian (DOT)

Congress made the decision to cut back on funding in the MBTA, got less funding again.

1:50:29.200 --> 1:50:34.710

Tynes, Julian (DOT)

It would be 22% of the reduced amount, so that's why it's projected.

1:50:34.780 --> 1:50:52.650

Tynes, Julian (DOT)

But the goal itself also being projected is 22% and if you have questions or comments on the triennial DBE goal and I'm sure after this meeting you'll have questions and comments, umm, you may raise some here, we may have time here.

1:50:52.660 --> 1:50:59.900

Tynes, Julian (DOT)

But the other thing is I think we've all been in a meeting or somewhere where after we left, we said I should have asked that question.

1:51:0.260 --> 1:51:13.700

Tynes, Julian (DOT)

Well, if you have that question and you have comments or questions, as you can see the place where it can be submitted via email is [db@mbta.com](mailto:db@mbta.com).

1:51:15.40 --> 1:51:15.740

Tynes, Julian (DOT)

Next, please.

1:51:20.330 --> 1:51:29.300

Tynes, Julian (DOT)

And again, as it's emphasized, questions, answers and comments can be submitted to DBET, [mbta.com](http://mbta.com).

1:51:29.510 --> 1:51:36.690

Tynes, Julian (DOT)

And so now I'm going to turn it over, I believe, to Whiston who's going to introduce Miss McDonough, I believe.

1:51:38.430 --> 1:51:38.860

Umland, Wystan

Yes.

1:51:39.130 --> 1:51:39.640

Umland, Wystan

No.

1:51:40.10 --> 1:51:41.110

Umland, Wystan

Well, thank you, Julian.

1:51:41.650 --> 1:51:43.300

Umland, Wystan

Since secretary times, everybody.

1:51:43.350 --> 1:51:46.600

Umland, Wystan

Ohm for his wonderful, wonderful presentation.

1:51:46.750 --> 1:51:47.780

Umland, Wystan

Hopefully kill laddered up.

1:51:47.790 --> 1:51:48.480

Umland, Wystan

A lot of things.

1:51:49.440 --> 1:52:6.180

Umland, Wystan

And again, just to reiterate what he said at the end, we asked to hold your questions and comments until the QC period after Chief McDonough has given her remarks and now with that to discuss a potential upcoming contracting opportunities here at Mvta.

1:52:6.640 --> 1:52:11.600

Umland, Wystan

I'd like to introduce the MTA Chief of Capital support, Maureen McDonough, Maureen.

1:52:12.650 --> 1:52:13.120

McDonough, Maureen

Thank you.

1:52:13.210 --> 1:52:15.200

McDonough, Maureen

Austin, good morning everyone.

1:52:15.210 --> 1:52:19.740

McDonough, Maureen

Very happy to be here to talk about the triennial goal.

1:52:20.290 --> 1:52:33.950

McDonough, Maureen

My team in capital programs capital program support works very closely with OCR Secretary Times in Winston and his team umm to set and implement these goals successfully on our capital program.

1:52:33.960 --> 1:52:44.690

McDonough, Maureen

So what I wanted to do is give an overview of the Capital investment plan and then talk about some how it's constructed, how these projects get reviewed and approved.

1:52:45.140 --> 1:52:58.610

McDonough, Maureen

Some of the highlights of the largest projects that are in the plan and also some of the places where you can go to see more mediate what projects and professional services are are coming coming soon.

1:52:59.610 --> 1:53:13.380

McDonough, Maureen

So the MBTI Capital investment program, or SIP, is a IT funds the planning, the design, the construction and all of the capital maintenance for all of our assets across the system.

1:53:13.510 --> 1:53:18.140

McDonough, Maureen

It's a rolling Plan 5 year plan that is updated on an annual basis.

1:53:18.350 --> 1:53:26.220

McDonough, Maureen

And so because it's a rolling plan, while it mostly funds the continuation of existing projects, it also does include new projects.

1:53:26.310 --> 1:53:51.70

McDonough, Maureen

So the current proposed plan is includes 600 capital projects and there are 43 new projects within within that number, there are three policy objectives that really drove the development of the SIP safety and reliability building and enhanced and improved system and promoting sustainability and resiliency.

1:53:52.270 --> 1:54:1.220

McDonough, Maureen

And Julian had mentioned some of these earlier, but there are seven programs within the SIP that are focused on reliability.

1:54:1.230 --> 1:54:7.580

McDonough, Maureen

So we have the bridge and tunnel, guideway, signal and power maintenance and administrative facilities.

1:54:7.790 --> 1:54:13.460

McDonough, Maureen

We have passenger facilities such as stations, vehicle procurement.

1:54:13.590 --> 1:54:24.450

McDonough, Maureen

I know the DBE goal doesn't apply to those, but we do have vehicle procurement funded within the SIP business and operational support and then technology and innovation.

1:54:24.990 --> 1:54:35.330

McDonough, Maureen

There are also three expansion programs, Green Line extension, which is we said nearing substantial completion South Coast rail and then other potential opportunities.

1:54:35.730 --> 1:54:41.700

McDonough, Maureen

So the annual SIP cycle runs from September through June each year.

1:54:41.790 --> 1:54:50.870

McDonough, Maureen

And so we are coming up to the end of this year's cycle with the presentation of the SIP to the Board of Directors in June.

1:54:51.890 --> 1:54:55.120

McDonough, Maureen

So I wanted to talk about some of the projects.

1:54:55.130 --> 1:54:58.680

McDonough, Maureen

So I said there's 600 projects in the SIP.

1:54:58.690 --> 1:55:4.740

McDonough, Maureen

Obviously, we can't talk about all of them today and those are across all of those programs.

1:55:4.870 --> 1:55:11.300

McDonough, Maureen

So those projects, in order to be included, they're all evaluated on the following criteria.

1:55:11.310 --> 1:55:24.70

McDonough, Maureen

So state of good repair, safety and security, mobility, cost effectiveness, sustainability and resiliency policy support social equity, an economic impact.

1:55:24.130 --> 1:55:46.730

McDonough, Maureen

It's important to note that state of good repair in safety and security make up half of the weighted score for any one of the projects going through the evaluation process in terms of some of the highlights of the largest projects in the current proposed zip, we do have the vehicle procurements for green line, red and Orange Line and the purchase of electric hybrid buses.

1:55:47.40 --> 1:55:51.190

McDonough, Maureen

We are gonna continue advancing the fare transformation program.

1:55:51.720 --> 1:55:53.830

McDonough, Maureen

The Quincy Bus maintenance facility.

1:55:54.730 --> 1:55:59.340

McDonough, Maureen

The SIP also includes North station draw one bridge replacement.

1:55:59.490 --> 1:56:8.860

McDonough, Maureen

We have funding for new on call track contracts, which will continue the work related to speed restrictions.

1:56:9.170 --> 1:56:13.260

McDonough, Maureen

We also are gonna continue to work on ATC implementation.

1:56:13.470 --> 1:56:17.540

McDonough, Maureen

The Green Line protection program and the South Coast real expansion.

1:56:18.610 --> 1:56:24.870

McDonough, Maureen

So as a reminder, the sip, as we said is A5 year rolling program, but in order to.

1:56:26.450 --> 1:56:27.120

McDonough, Maureen

Understand.

1:56:27.130 --> 1:56:27.440

McDonough, Maureen

Sort of.

1:56:27.450 --> 1:56:29.950

McDonough, Maureen

What's coming up more, you know, more quickly.

1:56:29.960 --> 1:56:38.180

McDonough, Maureen

And the more in the near future we do have our current construction letting schedule on the MBTA's website.

1:56:38.260 --> 1:56:42.560

McDonough, Maureen

It is on our bidding, in solicitations page and it is updated weekly.

1:56:42.870 --> 1:56:52.70

McDonough, Maureen

Currently there's 15 projects in the letting schedule for the next fiscal year starting in July.

1:56:52.420 --> 1:56:58.190

McDonough, Maureen

We are also looking at our procurement schedule for professional services.

1:56:58.640 --> 1:57:1.130

McDonough, Maureen

The MBTA did a very large solicitation.

1:57:1.140 --> 1:57:9.90

McDonough, Maureen

Probably maybe three or four years ago and we have a number of GCS that will need to be go to go back out on the street.

1:57:9.100 --> 1:57:12.770

McDonough, Maureen

So we are developing our professional services procurement schedule.

1:57:12.980 --> 1:57:16.650

McDonough, Maureen

We also post that on the website and keep it updated.

1:57:17.350 --> 1:57:17.720

McDonough, Maureen

Umm.

1:57:18.800 --> 1:57:19.850

McDonough, Maureen

As much as we can.

1:57:19.860 --> 1:57:35.400

McDonough, Maureen

So with respect to those projects that will be coming up soon at for a construction contract, we work with Wisdoms team, as Julian said, for contracts, these goals are set very specifically based on the scope, size, complexity of the project.

1:57:35.480 --> 1:57:41.300

McDonough, Maureen

So there will be a goal for each of the construction projects when it puts out to bid.

1:57:41.310 --> 1:58:1.50

McDonough, Maureen

The goal is within the bid package with respect to professional services and with GECS in particular, we use the triennial goal as the contract goal and then for each task order we work with OCR in a specific DBE goal set for each task order.

1:58:1.300 --> 1:58:5.70

McDonough, Maureen

So that's been an enhancement to our process and has been working very well.

1:58:5.480 --> 1:58:9.630

McDonough, Maureen

So there are a number of projects, lots of opportunities.

1:58:9.910 --> 1:58:14.40

McDonough, Maureen

I encourage you to look at the sip.

1:58:14.50 --> 1:58:24.440

McDonough, Maureen

Take a look at our website what's posted, and then certainly if you have questions you can send them into the MBTA and we can, we can answer them for you.

1:58:25.280 --> 1:58:25.720

McDonough, Maureen  
Uh.

1:58:25.800 --> 1:58:27.910

McDonough, Maureen  
But with that, thank you very much.

1:58:27.960 --> 1:58:30.340

McDonough, Maureen  
And I would like to turn it over to Whiston.

1:58:33.700 --> 1:58:34.690

Umland, Wystan  
Thank you, Maureen.

1:58:34.800 --> 1:58:36.0

Umland, Wystan  
That was awesome.

1:58:36.10 --> 1:58:36.700

Umland, Wystan  
That was great.

1:58:36.710 --> 1:58:37.70

Umland, Wystan  
Thank you.

1:58:37.80 --> 1:58:37.930

Umland, Wystan  
Very informative.

1:58:39.100 --> 1:58:45.290

Umland, Wystan  
So hopefully with that, we will now begin our question comment.

1:58:45.840 --> 1:58:47.620

Umland, Wystan  
Uh session of uh.

1:58:47.630 --> 1:58:48.890

Umland, Wystan  
Period of today's meeting.

1:58:49.360 --> 1:59:8.0

Umland, Wystan  
If you do have a question and would like to say it verbally, please use the raise hand and I will open you up and either Chief McDonough or secretary of times can answer your question or you can put it in chat and we will work diligently.

1:59:8.10 --> 1:59:11.120

Umland, Wystan

They will either answer it in person or I will type you a response.

1:59:12.880 --> 1:59:15.450

Umland, Wystan

So from the chat, we'll start there first.

1:59:16.220 --> 1:59:20.530

Umland, Wystan

We have a we sorry.

1:59:22.140 --> 1:59:31.640

Umland, Wystan

So from coral, where can we access the list of 50 projects and other projects just mentioned by Chief McDonough?

1:59:33.150 --> 2:0:3.280

McDonough, Maureen

So if you go to the for the projects that are on our current letting schedule for construction and also upcoming solicitations for professional services, if you go to the MTA website and are we have a business page, a bidding and solicitations page, our business page, those procurement schedules should be there with the project brief description in the expected date of solicitation.

2:0:6.810 --> 2:0:11.420

Umland, Wystan

And another one from the chat, can you define from Foley?

2:0:11.430 --> 2:0:13.710

Umland, Wystan

Can you define professional services?

2:0:16.510 --> 2:0:17.20

McDonough, Maureen

Sure.

2:0:17.30 --> 2:0:23.60

McDonough, Maureen

So professional services are so first the simple thing is saying not construction, right?

2:0:23.70 --> 2:0:26.460

McDonough, Maureen

So we're talking about design services programming.

2:0:27.30 --> 2:0:29.440

McDonough, Maureen

We have PMCM services.

2:0:30.450 --> 2:0:41.720

McDonough, Maureen

We have project control support, so a number of services that are we bring consultants on to support us in the delivery of capital programs.

2:0:41.730 --> 2:0:46.480

McDonough, Maureen

It may be, as I said, it may be the design of a project and then construction phase services.

2:0:47.80 --> 2:0:49.600

McDonough, Maureen

It might be an extension of our management team.

2:0:49.610 --> 2:1:15.950

McDonough, Maureen

With PMCM, we have owners, representatives on specific projects, but we also use professional services as staff augmentation and to provide Technical Support services to the capital to the, to the CPS team, to my support team for claims change orders, project control, scheduling, any number of things.

2:1:18.790 --> 2:1:19.320

Umland, Wystan

Thank you, Maureen.

2:1:21.220 --> 2:1:21.720

Umland, Wystan

Umm.

2:1:21.730 --> 2:1:28.120

Umland, Wystan

And thank you, Terrance uh, for for placing the business center bidding into the chat.

2:1:30.320 --> 2:1:38.0

Umland, Wystan

OK, so we have a question 4 Julian from John Powerbait.

2:1:38.450 --> 2:1:49.370

Umland, Wystan

Can you provide the federal fiscal year 2123, DBE participation numbers to date, both the race conscious and race neutral breakdown?

2:1:54.20 --> 2:1:55.70

Umland, Wystan

Oh, you're muted, Julian.

2:1:58.400 --> 2:2:0.990

Tynes, Julian (DOT)

I don't have the number directly in front of me.

2:2:1.0 --> 2:2:3.790

Tynes, Julian (DOT)

I can tell you that the race neutral.

2:2:3.960 --> 2:2:6.570

Tynes, Julian (DOT)

Why were you achieved 20%?

2:2:7.420 --> 2:2:12.270

Tynes, Julian (DOT)

Are race neutral participation was less than 2%.

2:2:14.630 --> 2:2:39.440

Tynes, Julian (DOT)

Which is why is when I emphasized the need to continue to have race and gender conscious participation, our race neutral, and we're looking currently at different measures, we can do to try to increase race neutral participant participation in order to ensure that the level playing field can be created in is.

2:2:41.230 --> 2:2:51.170

Tynes, Julian (DOT)

A the least restrictive manner possible in a manner that is as good as gender and race neutral as possible.

2:2:54.190 --> 2:2:54.450

Umland, Wytan

It.

2:2:54.500 --> 2:2:57.30

Tynes, Julian (DOT)

But we can get you those numbers, Mr Torbay.

2:2:57.40 --> 2:2:59.170

Tynes, Julian (DOT)

If you want to see, we report it.

2:2:59.180 --> 2:3:0.610

Tynes, Julian (DOT)

So we can get you those numbers.

2:3:0.620 --> 2:3:2.500

Tynes, Julian (DOT)

I just don't have it in front of me right now.

2:3:5.500 --> 2:3:5.890

Umland, Wytan

Alright.

2:3:5.900 --> 2:3:9.640

Umland, Wystan

And UM, we do have a question from.

2:3:13.90 --> 2:3:32.70

Umland, Wystan

Our Miss McLaren and she'll be asking that I'll turn your mic off and again just before I do, I do ask that we do keep our questions ohm, set it on the methodology and the upcoming goal and we'll try to be respectful of people's time and then I'll try to get everybody in as much as I can.

2:3:32.80 --> 2:3:33.150

Umland, Wystan

So miss McLaren?

2:3:34.400 --> 2:3:40.260

Umland, Wystan

Umm, all you have to do is unmute yourself and ask your question or make your comment.

2:3:42.270 --> 2:3:43.220

Tima Maclaurin

OK, great.

2:3:43.230 --> 2:3:44.20

Tima Maclaurin

Thank you so much.

2:3:44.30 --> 2:3:45.40

Tima Maclaurin

Wrist and you can hear me now.

2:3:45.700 --> 2:3:46.500

Umland, Wystan

Uh, we can.

2:3:47.50 --> 2:3:47.850

Tima Maclaurin

Alright, awesome.

2:3:47.860 --> 2:3:48.440

Tima Maclaurin

Thank you.

2:3:49.330 --> 2:3:51.800

Tima Maclaurin

This is very informative, very much appreciated.

2:3:52.650 --> 2:3:57.360

Tima Maclaurin

Just a question for marine, this is Tina from Commodore builders.

2:3:57.370 --> 2:4:0.380

Tima Maclaurin

Hello my question I have two of them.

2:4:0.390 --> 2:4:13.0

Tima Maclaurin

First of all, is there one specific day of the week when the MBTA website is updated with those upcoming opportunities similar to the Central Register coming out every Wednesday?

2:4:13.150 --> 2:4:22.230

Tima Maclaurin

And also can you briefly touch on your plans for doing 149 a construction projects, please?

2:4:23.660 --> 2:4:24.210

McDonough, Maureen

Sure.

2:4:24.480 --> 2:4:24.890

McDonough, Maureen

Thank you.

2:4:24.900 --> 2:4:28.370

McDonough, Maureen

Teama with respect to when we update, I can.

2:4:28.380 --> 2:4:31.690

McDonough, Maureen

I'm gonna confirm, but I believe it is at the end of each week.

2:4:31.760 --> 2:4:43.290

McDonough, Maureen

We have internal meetings on Wednesdays where folks from my team meet with the delivery teams and make sure that we have all the latest information, dates, projects, etcetera.

2:4:43.540 --> 2:4:56.160

McDonough, Maureen

Those happen on Wednesday, so then typically on Thursdays, if possible by Fridays, we update the procurement schedules with respect to 149 a just for those not familiar.

2:4:56.170 --> 2:5:6.320

McDonough, Maureen

149 A allows the MBTA to use design, build, or CM at risk, while the majority of our projects are delivered design, bid, build.

2:5:6.700 --> 2:5:12.520

McDonough, Maureen

Given their their scope, we do have the ability to use these.

2:5:12.600 --> 2:5:24.220

McDonough, Maureen

We recently used 149 ACM at risk for the Quincy Bus maintenance facility, so we can use design build on horizontal projects that are over \$5 million.

2:5:24.230 --> 2:5:30.500

McDonough, Maureen

We can use CM at risk for vertical projects that are over \$5 million.

2:5:30.510 --> 2:5:36.840

McDonough, Maureen

We have developed an internal process where at the beginning of each project we do an evaluation.

2:5:36.850 --> 2:5:45.880

McDonough, Maureen

We have a number of criteria that we look at to determine the best and most appropriate delivery method, and so we will continue to do that.

2:5:46.310 --> 2:5:54.960

McDonough, Maureen

I think we probably have more building projects in our portfolio than we have in years past with the bus maintenance program.

2:5:55.130 --> 2:5:58.910

McDonough, Maureen

And so we will look to see with those building projects.

2:5:58.920 --> 2:6:6.210

McDonough, Maureen

For instance, if CM at risk is appropriate, but we will we do that evaluation on a project by project by project basis?

2:6:9.410 --> 2:6:10.300

Umland, Wystan

Thank you, Maureen.

2:6:11.150 --> 2:6:21.760

Umland, Wystan

This question from the chat from Jason Cardinal what percentage of DBE goals are expected to be satisfied by debbes subcontracting from prime vendors?

2:6:26.950 --> 2:6:28.80

Tynes, Julian (DOT)

Could you read that again?

2:6:28.90 --> 2:6:31.340

Tynes, Julian (DOT)

Because I I need clarity on exactly what.

2:6:31.590 --> 2:6:35.20

Tynes, Julian (DOT)

What did you read it to me again?

2:6:35.30 --> 2:6:36.190

Tynes, Julian (DOT)

I can't see it.

2:6:35.540 --> 2:6:37.750

Umland, Wystan

Or sure it is.

2:6:37.810 --> 2:6:49.90

Umland, Wystan

Uh, what percentage of DBE goals are expected to be satisfied by DBE subcontracting from prime vendors?

2:6:49.270 --> 2:6:50.110

Umland, Wystan

So Jason?

2:6:50.470 --> 2:6:51.170

Umland, Wystan

Umm.

2:6:51.610 --> 2:6:58.330

Umland, Wystan

If if I'm correct in interpreting this ohh this is a more of a race neutral race conscious question.

2:6:58.380 --> 2:6:59.910

Umland, Wystan

Or are you looking for?

2:7:0.720 --> 2:7:2.300

Umland, Wystan

Will our goal be?

2:7:3.520 --> 2:7:11.340

Umland, Wystan

Achieved more by race conscious in the DBS will be subcontracting versus DBS working as primes.

2:7:16.410 --> 2:7:16.720

Tynes, Julian (DOT)

I would.

2:7:19.410 --> 2:7:40.20

Tynes, Julian (DOT)

I would say that what we would, what we believe will happen if we meet our goal is we believe that out of the 22% goal, we believe 18% will be achieved through race conscious, gender conscious measures.

2:7:41.570 --> 2:7:42.750

Tynes, Julian (DOT)

In other words, that would be.

2:7:43.630 --> 2:8:9.340

Tynes, Julian (DOT)

Subcontracting, we believe that 4% would come through race neutral measures which would be either DBE being a prime on a contract or the DBE as I stated before being added to a project even after the goal has been met.

2:8:10.400 --> 2:8:23.930

Tynes, Julian (DOT)

But the DBE is added to the project and so for example, let's say the goal was 20% and that's been achieved and another DBE is added because of additional worker just added.

2:8:24.460 --> 2:8:32.610

Tynes, Julian (DOT)

So it's 24%, so the project would have achieved 24 percent, 20% would have been true.

2:8:32.960 --> 2:8:44.740

Tynes, Julian (DOT)

Race conscious measures 4% would have been through race neutral measures and so we would have had 4% that have been achieved through race, gender, race neutral measures.

2:8:48.240 --> 2:8:49.10

Umland, Wystan

Thank you, Julian.

2:8:49.780 --> 2:8:50.110

Umland, Wystan

Alright.

2:8:50.120 --> 2:8:52.430

Umland, Wystan

Next question is from Laura Harriman.

2:8:53.300 --> 2:8:58.830

Umland, Wystan

Laura, I will unmute your mic on my end and you may have to do the same on yours.

2:9:2.440 --> 2:9:3.230

Laura Harriman

The thank you.

2:9:3.240 --> 2:9:3.720

Laura Harriman

Can you hear me?

2:9:4.300 --> 2:9:4.880

Umland, Wystan  
We sure can.

2:9:5.490 --> 2:9:5.920

Laura Harriman  
Perfect.

2:9:5.930 --> 2:9:8.440

Laura Harriman  
Thanks so much and thank you for hosting this event.

2:9:8.680 --> 2:9:10.560

Laura Harriman  
I have, I think 3 questions.

2:9:10.930 --> 2:9:19.20

Laura Harriman  
One is if you are a certified, we've got hands, be WBA.

2:9:19.200 --> 2:9:19.460

Laura Harriman  
Uh.

2:9:19.470 --> 2:9:24.30

Laura Harriman  
With the Commonwealth of Math through Supplier Diversity Office, is that the same as being?

2:9:26.20 --> 2:9:29.340

Laura Harriman  
Do we still need to register through the MBTA DBE program?

2:9:30.100 --> 2:9:32.910

Tynes, Julian (DOT)  
Yes, that's a federal requirement.

2:9:33.60 --> 2:9:36.370

Tynes, Julian (DOT)  
DBE certification is completely separate.

2:9:42.420 --> 2:9:42.640

Laura Harriman  
OK.

2:9:36.720 --> 2:9:54.830

Tynes, Julian (DOT)  
It's a federal requirement, and so you have to go through the process and I don't know if you've ever applied for DBE certification, but there's going to be, umm, I will say that there's going to be a lot more questions asked of you.

2:9:54.840 --> 2:10:0.890

Tynes, Julian (DOT)

There will be questions on your personal net worth on your ability to.

2:10:2.850 --> 2:10:8.530

Tynes, Julian (DOT)

Achieve other financial means to achieve funding, so on and so forth.

2:10:9.210 --> 2:10:24.300

Tynes, Julian (DOT)

Umm, the value of your business, the size of your business, those are factors that aren't considered by the Commonwealth in the M&WB certification as stated and many people have concerns with that.

2:10:24.730 --> 2:10:28.960

Tynes, Julian (DOT)

But what one thing we have to remember is this is a federal certification.

2:10:29.470 --> 2:10:32.10

Tynes, Julian (DOT)

The rules are not set by the MBTA.

2:10:32.20 --> 2:10:41.670

Tynes, Julian (DOT)

They're set by the US Department of Transportation, and they're followed by all of those recipients who received those funds.

2:10:42.180 --> 2:10:59.570

Tynes, Julian (DOT)

And so the DB certification which is universal is reciprocal, would be the same once you get the DB certification, you can work on a math dot project and MBTA project mass port for an RTA on a federally funded project.

2:10:59.640 --> 2:11:4.920

Tynes, Julian (DOT)

But the certification requirements are the same and they're the same across the different states.

2:11:5.790 --> 2:11:6.110

Laura Harriman

Perfect.

2:11:5.830 --> 2:11:6.500

Tynes, Julian (DOT)

So yeah.

2:11:7.210 --> 2:11:7.840

Laura Harriman

Thank you.

2:11:8.490 --> 2:11:25.260

Laura Harriman

The the the second part of my question is in your categories in the beginning of the presentation you mentioned I think technology and innovation are information technology projects categorized under professional services or they categorized under some other category.

2:11:27.30 --> 2:11:33.390

Tynes, Julian (DOT)

Most I will say most of the time it would be under professional services.

2:11:35.210 --> 2:11:53.210

Tynes, Julian (DOT)

However, there may be construction projects and I believe Miss McDonough can speak on that better than I can, but there would be construction projects in which, for example, IT may be an integral part of the construction project itself.

2:11:54.570 --> 2:11:55.410

Laura Harriman

So is this just for?

2:11:56.470 --> 2:11:57.120

Laura Harriman

Oh, I'm sorry.

2:11:54.290 --> 2:11:57.310

Tynes, Julian (DOT)

And so, but generally speaking use me.

2:11:57.190 --> 2:12:0.480

Laura Harriman

Yes, so is this is this only for construction projects.

2:12:0.490 --> 2:12:4.960

Laura Harriman

So like from from where I'm sitting like the automated fare collection, right?

2:12:5.590 --> 2:12:16.930

Laura Harriman

MBTA has been going through an upgraded that for a few years, like as an example, are those types of programs subject if they're capital federal funding? Are they included in this type of work?

2:12:17.510 --> 2:12:17.790

Tynes, Julian (DOT)

They are.

2:12:18.520 --> 2:12:18.950

Laura Harriman

OK.

2:12:19.110 --> 2:12:24.40

Laura Harriman

And so it would be under professional services from your procurement website.

2:12:24.830 --> 2:12:25.90

Tynes, Julian (DOT)

Sure.

2:12:25.310 --> 2:12:25.500

McDonough, Maureen

Right.

2:12:25.510 --> 2:12:30.440

McDonough, Maureen

So I think to to Julia's point, you have to look Laura at the specific scope.

2:12:30.450 --> 2:12:32.440

McDonough, Maureen

So let's take fair transformation.

2:12:32.730 --> 2:12:41.170

McDonough, Maureen

Fair Transformation has design consultants that work for that team designing that program, right?

2:12:41.350 --> 2:12:45.740

McDonough, Maureen

They have consultants that are working providing additional PMCM support.

2:12:45.750 --> 2:12:48.180

McDonough, Maureen

Those are professional consulting services.

2:12:48.430 --> 2:12:54.260

McDonough, Maureen

They also have construction contracts dealing with the installation of the system.

2:12:54.350 --> 2:12:59.530

McDonough, Maureen

So within one program you can have more than one type of contract.

2:12:59.610 --> 2:13:9.30

McDonough, Maureen

So whether it's professional services or its construction is is dependent, not necessarily on just the program, but the scope of work of the contract itself.

2:13:10.850 --> 2:13:11.280

Laura Harriman

Got it.

2:13:11.290 --> 2:13:11.680

Laura Harriman

Thank.

2:13:11.690 --> 2:13:12.130

Laura Harriman

Thank you.

2:13:10.820 --> 2:13:23.300

Tynes, Julian (DOT)

Yeah, I think, yeah, I think the important thing to remember is if it's federally funded is still subject to the regulations to the requirements of the DBE program.

2:13:27.980 --> 2:13:30.780

Tynes, Julian (DOT)

So it doesn't matter in that sense.

2:13:36.950 --> 2:13:37.250

Laura Harriman

Right.

2:13:31.580 --> 2:13:41.540

Tynes, Julian (DOT)

It matters to you if you're looking for the opportunity to find out where the opportunities are, but as far as when we're setting the goal, it does not make a difference.

2:13:42.910 --> 2:13:44.300

Tynes, Julian (DOT)

It's part of the goal.

2:13:44.400 --> 2:13:49.300

Tynes, Julian (DOT)

It's federally funded and it's subject to the requirements of the DB program.

2:13:51.930 --> 2:13:52.310

Laura Harriman

Thank you.

2:13:55.570 --> 2:13:59.50

Tynes, Julian (DOT)

I think you had three questions or is everything been answered?

2:13:58.620 --> 2:13:59.930

Laura Harriman

You, you, you answered it.

2:13:59.940 --> 2:14:2.710

Laura Harriman

You answered my third question by the narrative, so thank you.

2:14:3.320 --> 2:14:3.610

Tynes, Julian (DOT)

All right.

2:14:5.500 --> 2:14:6.100

Umland, Wystan

Thank you, Laura.

2:14:6.110 --> 2:14:7.170

Umland, Wystan

That was a great questions.

2:14:7.180 --> 2:14:7.810

Umland, Wystan

Thank you.

2:14:8.340 --> 2:14:9.620

Umland, Wystan

We have another question.

2:14:9.830 --> 2:14:11.790

Umland, Wystan

This one's from Josephina Luna.

2:14:13.310 --> 2:14:17.10

Umland, Wystan

I will allow your mic access right now Josephina.

2:14:19.450 --> 2:14:20.400

Umland, Wystan

You can unmute yourself.

2:14:32.330 --> 2:14:32.540

Umland, Wystan

Oops.

2:14:37.840 --> 2:14:38.850

Umland, Wystan

I have to do is unmute.

2:14:38.860 --> 2:14:39.250

Umland, Wystan

There you go.

2:14:40.420 --> 2:14:44.630

Josefina Luna

Yes, I thank you very much for the opportunity.

2:14:46.120 --> 2:14:50.60

Josefina Luna

Like I have a Long Beach.

2:14:50.250 --> 2:15:17.350

Josefina Luna

Here in Boston, I am a founder of several correct that we provide full wasting composing to Boston Commercial Place and I my concerning now that I have in my Community estates, we have this project is going to have it beneficial impact in the daily temptation in Boston.

2:15:18.870 --> 2:15:19.320

Josefina Luna

Yes.

2:15:19.460 --> 2:15:31.210

Josefina Luna

It's it's hard when you have to go to places that you should take you 10 million, but you have to spend 30 or 40 million.

2:15:32.340 --> 2:15:35.700

Josefina Luna

They they they amount or they contamination.

2:15:36.560 --> 2:15:40.310

Josefina Luna

The amount of the vehicle in Boston Rd.

2:15:41.300 --> 2:15:45.510

Josefina Luna

Is, is, is is unbelievable and I think so.

2:15:45.520 --> 2:15:47.950

Josefina Luna

One other reason is dot.

2:15:48.740 --> 2:15:51.850

Josefina Luna

The people needed vehicle here to go to work.

2:15:52.380 --> 2:16:4.970

Josefina Luna

The people need a vehicle to go everywhere because we don't have a a public transportation that available for every for the majority of the people we don't have it.

2:16:5.540 --> 2:16:7.680

Josefina Luna

It's not like a new chair in New York.

2:16:7.690 --> 2:16:13.70

Josefina Luna

You don't need to have a car because you can pay your train anywhere you go.

2:16:13.220 --> 2:16:14.900

Josefina Luna

Postal is not like that.

2:16:15.770 --> 2:16:19.720

Josefina Luna

So the contamination that we have in Boston is too high.

2:16:20.110 --> 2:16:28.970

Josefina Luna

The quality of the air that we breathe every day is not safe for the amount of the vehicle circulating in our world.

2:16:29.890 --> 2:16:34.70

Josefina Luna

These probably going to have it going to reduce that.

2:16:34.250 --> 2:16:38.790

Josefina Luna

It's going to make the temptation, the daily transportation for both the better.

2:16:39.940 --> 2:16:49.600

Josefina Luna

In another question, do you have any idea how many people from our community going to work in this project?

2:16:49.750 --> 2:16:56.800

Josefina Luna

Do you have any idea that you can tell me we going 2000 people, 3000 people going to working in this for you.

2:16:57.840 --> 2:17:11.450

Josefina Luna

How the people we going to give it the people, the orientation or the training that they can take your opportunity or this project that is going to be handled to Boston or this Massachusetts State?

2:17:13.230 --> 2:17:14.480

Josefina Luna

That's my concern.

2:17:14.630 --> 2:17:16.720

Josefina Luna

My concern is the daily life.

2:17:17.600 --> 2:17:19.80

Josefina Luna  
How we deal with that?

2:17:19.120 --> 2:17:21.490

Josefina Luna  
How this going to beneficial us?

2:17:21.620 --> 2:17:25.290

Josefina Luna  
How this going to beneficial the people from my community?

2:17:26.330 --> 2:17:27.320

Josefina Luna  
That's my question.

2:17:27.450 --> 2:17:27.850

Josefina Luna  
Thank you.

2:17:31.810 --> 2:17:58.770

Tynes, Julian (DOT)  
OK, I think to a degree that might be larger than what we're trying to answer here on the goal, I can say that one of the aims of the MBTA and doing its projects is to increase transportation equity so that people from different areas do have access to being able to get around town to being able to get places.

2:17:58.820 --> 2:18:14.250

Tynes, Julian (DOT)  
One of the important things in the projects that we're doing from the the safety, the maintenance, the different work, the MBTA is doing is to ensure that people have safe, equitable transportation.

2:18:14.920 --> 2:18:33.60

Tynes, Julian (DOT)  
And so these projects in that plan would go in furtherance of that as far as, Umm, who is going to be hired under the federal rules at the present time, there can't be for federal money.

2:18:33.70 --> 2:18:38.660

Tynes, Julian (DOT)  
A local preference for either a local company or local hiring.

2:18:38.670 --> 2:18:40.420

Tynes, Julian (DOT)  
Now they've they've looked at certain things.

2:18:40.430 --> 2:18:57.740

Tynes, Julian (DOT)  
However, we do do things to ensure that the contractors that when the bids and so on and so forth that they have non discriminatory hiring practices to ensure that people get the opportunities to work for them.

2:19:2.420 --> 2:19:2.990

Josefina Luna  
Thank you, Sir.

2:19:10.830 --> 2:19:12.340

Tynes, Julian (DOT)  
Do we have any other questions?

2:19:13.570 --> 2:19:17.560

Umland, Wystan  
And the scrolling through the chat right now.

2:19:20.0 --> 2:19:21.250

Umland, Wystan  
There was a good, good one.

2:19:22.240 --> 2:19:23.910

Umland, Wystan  
This one's from Marsha Harris.

2:19:24.680 --> 2:19:31.540

Umland, Wystan  
For a comparative information, what are the current goals for both federal and state?

2:19:37.400 --> 2:19:37.880

Tynes, Julian (DOT)  
Umm.

2:19:41.10 --> 2:19:46.50

Tynes, Julian (DOT)  
The MBTA is not established in MWBE goal.

2:19:49.590 --> 2:19:53.0

Tynes, Julian (DOT)  
And So what I can give you right now is what we have.

2:19:53.150 --> 2:19:57.580

Tynes, Julian (DOT)  
So all we have right now is the federal goal.

2:19:58.90 --> 2:20:9.700

Tynes, Julian (DOT)  
One of the things that is beyond this, but one of the things that we're doing, and we're embarking on is we're embarking on a disparity study to see where the disparities exist?

2:20:10.310 --> 2:20:44.240

Tynes, Julian (DOT)  
Why they exist and strategies on how to address it that will help us that will assist us very much so in in addressing the disparities in the marketplace and participation and so on and so forth on the state

funded programs and at that time when the disparity program study is completed or as we've gathered information from that, we would be able to do more of a comparative analysis and also present a plan on how we plan to address those disparities.

2:20:50.440 --> 2:20:52.250

Umland, Wystan

See, this is from the chat.

2:20:52.260 --> 2:20:53.170

Umland, Wystan

Thank you, Julianne.

2:20:53.500 --> 2:20:54.930

Umland, Wystan

This one is from the chat.

2:20:55.540 --> 2:20:56.930

Umland, Wystan

It's from Brian Leetch.

2:20:57.380 --> 2:21:10.750

Umland, Wystan

I understand that one of the challenges faced by small businesses is the significant time investment required to navigate the process of bidding on available contracts.

2:21:11.280 --> 2:21:23.210

Umland, Wystan

In many cases, the dissemination of contract postings across various websites is accompanied by subpar alert systems, making it difficult to stay informed, not relevant opportunities.

2:21:24.170 --> 2:21:39.400

Umland, Wystan

Considering these circumstances, what is the possibility of enhancing bit systems in the future, aiming to create a more streamlined and efficient process for identifying and bidding on contracts that align with our qualifications?

2:21:39.950 --> 2:21:53.390

Umland, Wystan

This improvement would alleviate the burden of manual searching and enable us to focus our efforts more effectively and make them more accessible to smaller businesses that cannot afford a dedicated sales bid team.

2:21:57.110 --> 2:22:9.790

McDonough, Maureen

So I can take a little bit of this twisted and then if Julian wants to add in, but I'm great question, we did start over a year ago a small business enterprise program.

2:22:10.660 --> 2:22:11.60

McDonough, Maureen  
Umm.

2:22:11.460 --> 2:22:23.690

McDonough, Maureen  
Or construction and I we have continued to work to improve, as you say, the outreach in the ability of small firms to be successful at the MBTA.

2:22:23.700 --> 2:22:28.940

McDonough, Maureen  
So we do, we used to have them on our regular business page on the website.

2:22:28.950 --> 2:22:33.640

McDonough, Maureen  
We have created a new small business on page on the website.

2:22:33.650 --> 2:22:38.140

McDonough, Maureen  
So the information should be there and more easy and accessible to find.

2:22:38.920 --> 2:22:41.380

McDonough, Maureen  
We took our construction contracts.

2:22:41.690 --> 2:22:48.820

McDonough, Maureen  
And spent a lot of time with the bid documents in our construction contracts, simplifying them as best we could.

2:22:48.970 --> 2:23:11.750

McDonough, Maureen  
Also, looking at the requirements for things such as insurance so that hopefully it is a simpler process, we revised our pre qualification process and we are looking at that again to continue to try to make it as simple as possible for small businesses to do work with the MTA.

2:23:11.760 --> 2:23:19.730

McDonough, Maureen  
So we recognize that oftentimes the challenge isn't the work itself, but it's the process of working with the large public owner.

2:23:20.20 --> 2:23:26.880

McDonough, Maureen  
And I'll bring these comments back to the team to make sure we continue the outreach.

2:23:27.50 --> 2:23:29.170

McDonough, Maureen  
We continue to sort of.

2:23:30.290 --> 2:23:34.280

McDonough, Maureen

Improve our ability to keep small businesses informed.

2:23:35.170 --> 2:23:39.240

McDonough, Maureen

Marilyn, just put the website location in the chat.

2:23:39.330 --> 2:23:54.90

McDonough, Maureen

So you can go there to look at the SSE website location, but I appreciate your comment and we are working, you know sort of continuous effort to try to approve, improve the access.

2:23:55.440 --> 2:24:3.630

McDonough, Maureen

We're also looking at doing training programs on things like on work, associated with the administrative side, what if there's a change?

2:24:3.640 --> 2:24:4.490

McDonough, Maureen

What if there's?

2:24:4.580 --> 2:24:6.610

McDonough, Maureen

How do we do invoicing and payment?

2:24:6.620 --> 2:24:11.110

McDonough, Maureen

Really trying to help small businesses learn how to do business successfully with the MBTA.

2:24:15.310 --> 2:24:15.720

Umland, Wystan

Thank you.

2:24:15.730 --> 2:24:16.440

Umland, Wystan

Thank you, Maureen.

2:24:17.70 --> 2:24:20.420

Umland, Wystan

I'm so we'll have one from the chat and then we have a hand up.

2:24:20.430 --> 2:24:23.950

Umland, Wystan

So this question is from Mr Derek Cherry.

2:24:24.630 --> 2:24:48.830

Umland, Wystan

How does the authority balance the goal set forth for mwbe usage with public, with the public bidding

process if numbers are close between a prime mwbe E and another prime, will the authority give preference to the MWBE, or is preference more heavily weighted within RQS?

2:24:51.570 --> 2:24:51.930

Tynes, Julian (DOT)

Umm.

2:24:54.0 --> 2:24:59.180

Tynes, Julian (DOT)

Well, the first thing I want to address is for our state program, we don't have goals.

2:25:1.290 --> 2:25:4.340

Tynes, Julian (DOT)

On individual, we don't set project goals.

2:25:5.280 --> 2:25:7.360

Tynes, Julian (DOT)

There hasn't been a disparity study yet.

2:25:8.320 --> 2:25:13.870

Tynes, Julian (DOT)

We don't set gold, we do set the pride, the DBE goals through the federal program.

2:25:14.620 --> 2:25:31.210

Tynes, Julian (DOT)

Now the question being, for example, when a when a bid is viewed, it is not viewed through the lens of well and M of you BE or D VE did made this bid.

2:25:31.420 --> 2:25:33.350

Tynes, Julian (DOT)

Somebody else made this bid?

2:25:33.680 --> 2:25:34.530

Tynes, Julian (DOT)

Ohh, it's close.

2:25:34.540 --> 2:25:36.190

Tynes, Julian (DOT)

We'll go with the DBE.

2:25:36.540 --> 2:25:37.870

Tynes, Julian (DOT)

That's not how it's done.

2:25:38.280 --> 2:25:40.850

Tynes, Julian (DOT)

We do it by who's the most qualified bidder.

2:25:40.920 --> 2:25:42.480

Tynes, Julian (DOT)

They have to be a qualified bidder.

2:25:43.430 --> 2:26:4.490

Tynes, Julian (DOT)

That's how that works and I wanna say that's important because, for example, it wouldn't truly be race neutral if when a DBE, for example, won the bid, they want it because they were DBE, that wouldn't be raised neutral and not only that, let's say we started a practice like this.

2:26:5.970 --> 2:26:15.230

Tynes, Julian (DOT)

If we're lucky, it would take two weeks before we were in court because somebody would challenge it because frankly, it would be illegal.

2:26:15.580 --> 2:26:26.340

Tynes, Julian (DOT)

It has to be narrowly tailored and so no, we don't do it and we don't say what we're going to show a preference for this type of firm or this type of firm in the bit.

2:26:31.350 --> 2:26:32.120

Umland, Wystan

Thank you.

2:26:32.510 --> 2:26:34.930

Umland, Wystan

Great question and great answer.

2:26:34.940 --> 2:26:36.550

Umland, Wystan

Thank you, Julian. OK.

2:26:36.750 --> 2:26:38.480

Umland, Wystan

So we're gonna go.

2:26:38.490 --> 2:26:40.960

Umland, Wystan

We have a question from Marsha.

2:26:40.970 --> 2:26:43.460

Umland, Wystan

Marsha, I will unmute you.

2:26:44.880 --> 2:26:48.360

Umland, Wystan

And now you will unmute yourself.

2:26:50.400 --> 2:26:50.870

Marsha Harris  
OK.

2:26:50.880 --> 2:26:51.430

Marsha Harris  
Hi.

2:26:51.520 --> 2:26:56.610

Marsha Harris  
Thank you again for I'm hosting this presentation.

2:26:56.620 --> 2:27:2.770

Marsha Harris  
It's extremely informative and I think I misstated my question in the chat.

2:27:3.320 --> 2:27:26.410

Marsha Harris  
What I'm wondering is what the what the the current stated goals on the federal level and then for the MBTA, for DBE is I know we have a a proposed umm goal of 22% or one billion \$841,567,043.

2:27:26.900 --> 2:27:27.290

Marsha Harris  
What?

2:27:27.300 --> 2:27:31.440

Marsha Harris  
What is it now as opposed to what it's going to be?

2:27:32.320 --> 2:27:33.650

Tynes, Julian (DOT)  
OK, alright.

2:27:31.450 --> 2:27:34.370

Marsha Harris  
I guess I'm wondering what kind of increase we've got.

2:27:36.810 --> 2:27:36.990

Marsha Harris  
Yeah.

2:27:33.660 --> 2:27:38.370

Tynes, Julian (DOT)  
I want to correct a few things, one the 1 billion that's the overall spent.

2:27:38.630 --> 2:27:39.270

Marsha Harris  
No, I under.

2:27:38.550 --> 2:27:40.70

Tynes, Julian (DOT)  
That's not the DVD go.

2:27:40.500 --> 2:27:41.370

Marsha Harris  
Yeah, I understand.

2:27:41.540 --> 2:27:42.810

Marsha Harris  
OK, I understand that.

2:27:43.170 --> 2:27:43.690

Marsha Harris  
What is it now?

2:27:40.560 --> 2:27:47.50

Tynes, Julian (DOT)  
OK, OK, Alright, now now and again.

2:27:47.120 --> 2:27:49.210

Tynes, Julian (DOT)  
What we look at is percentage.

2:27:49.440 --> 2:27:53.610

Tynes, Julian (DOT)  
Even though we say that we're projecting, so we don't look at actual spenders.

2:27:52.860 --> 2:27:54.640

Marsha Harris  
Hello correct.

2:27:53.620 --> 2:27:57.410

Tynes, Julian (DOT)  
We look at percentage, the current goal is 20%.

2:27:57.870 --> 2:27:58.220

Marsha Harris  
OK.

2:27:58.230 --> 2:27:58.590

Marsha Harris  
Thank you.

2:27:58.240 --> 2:28:1.50

Tynes, Julian (DOT)  
We're still in the federal fiscal year of 20.

2:28:1.60 --> 2:28:3.10

Tynes, Julian (DOT)

Ohh thank you for putting up the slide.

2:28:3.20 --> 2:28:5.590

Tynes, Julian (DOT)

Listen, so that's the current goal, 20%.

2:28:6.990 --> 2:28:7.210

Marsha Harris

OK.

2:28:8.170 --> 2:28:8.620

Marsha Harris

All right.

2:28:8.630 --> 2:28:8.910

Marsha Harris

Great.

2:28:8.920 --> 2:28:10.640

Marsha Harris

That's really what I wanted.

2:28:10.650 --> 2:28:11.290

Marsha Harris

Thank you so much.

2:28:16.90 --> 2:28:16.330

Umland, Wystan

OK.

2:28:19.150 --> 2:28:20.620

Umland, Wystan

We have some in the chat.

2:28:41.30 --> 2:28:41.270

Umland, Wystan

Ohh.

2:28:43.910 --> 2:28:46.100

Umland, Wystan

Umm, I think I'll before this one.

2:28:46.250 --> 2:28:55.530

Umland, Wystan

I believe Kathleen is asking why doesn't the MBTA include MWB companies in your diversity goals?

2:29:1.90 --> 2:29:5.970

Tynes, Julian (DOT)

In regards to the state funding in regards to state funded programming.

2:29:6.970 --> 2:29:7.870

Umland, Wystan

Believe so.

2:29:8.950 --> 2:29:10.30

Umland, Wystan

There's no follow up to that.

2:29:11.720 --> 2:29:13.180

Umland, Wystan

I was going to say Ohh.

2:29:11.970 --> 2:29:13.500

Tynes, Julian (DOT)

Alright, I'll OK.

2:29:13.510 --> 2:29:14.20

Tynes, Julian (DOT)

I can.

2:29:14.90 --> 2:29:18.320

Tynes, Julian (DOT)

I can explain why I can explain why. Umm.

2:29:21.170 --> 2:29:24.760

Tynes, Julian (DOT)

Years ago, the MBTA was subject to a lawsuit.

2:29:26.570 --> 2:29:30.800

Tynes, Julian (DOT)

They were setting MWBE goals.

2:29:31.980 --> 2:29:34.700

Tynes, Julian (DOT)

There had not been a disparity study.

2:29:34.710 --> 2:29:36.660

Tynes, Julian (DOT)

There had not been anything.

2:29:37.90 --> 2:29:40.380

Tynes, Julian (DOT)

If you're going to set goals, you have to have something to base it on.

2:29:40.390 --> 2:29:46.930

Tynes, Julian (DOT)

You have to show legally you have to show that not only is there a disparity.

2:29:48.390 --> 2:29:54.120

Tynes, Julian (DOT)

Ohh, but the there is a this is the most narrowly.

2:29:54.130 --> 2:30:5.70

Tynes, Julian (DOT)

There's a compelling state interest and you have to do from that compelling state interest you have to narrowly tailor the means on which you're going to address that.

2:30:6.170 --> 2:30:6.440

Tynes, Julian (DOT)

Uh.

2:30:8.480 --> 2:30:9.530

Tynes, Julian (DOT)

That disparity?

2:30:9.620 --> 2:30:13.410

Tynes, Julian (DOT)

Or the discrimination which whatever you're going to do to address it.

2:30:14.770 --> 2:30:26.540

Tynes, Julian (DOT)

Without that, if we were going to try to establish uh MWBE goals and this would be the MBTA, not the Commonwealth, doing this.

2:30:27.50 --> 2:30:38.490

Tynes, Julian (DOT)

So if the MBTA does that as an authority, basically, we would also have to go to court and show the disparity in why we did that.

2:30:38.500 --> 2:30:41.150

Tynes, Julian (DOT)

It can't be based purely on anecdotal evidence.

2:30:42.170 --> 2:30:54.900

Tynes, Julian (DOT)

That's part of the reason why we're doing a disparity study, why we've made the decision that we're going forward with the disparity study so that we can go and look at the different strategies to address that.

2:30:54.910 --> 2:31:11.140

Tynes, Julian (DOT)

But if we were to do it now, it would be premature and we would be basically violating the law and the

issue with that is when you do that at times you can end up actually hurting your long term interests because now you're under scrutiny from the courts.

2:31:11.150 --> 2:31:16.950

Tynes, Julian (DOT)

And so they're reviewing every program you're doing as you try to go do something, you'd have to get.

2:31:16.960 --> 2:31:21.370

Tynes, Julian (DOT)

Once you lose that lawsuit, you'd have to go and get court permission.

2:31:21.380 --> 2:31:24.290

Tynes, Julian (DOT)

They're going to review it before they go forward with, OK.

2:31:28.310 --> 2:31:28.630

Umland, Wystan

Thank you.

2:31:28.890 --> 2:31:30.380

Tynes, Julian (DOT)

However, let me do that.

2:31:30.390 --> 2:31:42.710

Tynes, Julian (DOT)

We do do other things and we're doing other things to ensure, uh, that, uh, we can go and have diversity.

2:31:42.770 --> 2:31:48.180

Tynes, Julian (DOT)

We encourage diversity and leveling.

2:31:48.190 --> 2:32:4.700

Tynes, Julian (DOT)

The playing field as much as possible on MBTA projects, including some things where we're following a model where we look at the total bid and we have a certain percentage for the total bid where they say how much they're reaching out to.

2:32:7.820 --> 2:32:12.210

Tynes, Julian (DOT)

Underserved communities, minority owned businesses, so on and so forth.

2:32:12.220 --> 2:32:14.830

Tynes, Julian (DOT)

We don't set a goal when we do that.

2:32:14.900 --> 2:32:20.780

Tynes, Julian (DOT)

Generally the the bidder will say and this is what I can reach on my goal.

2:32:21.880 --> 2:32:26.730

Tynes, Julian (DOT)

And so we look at the total impact and we judge that.

2:32:27.20 --> 2:32:34.890

Tynes, Julian (DOT)

But right now we don't have strict ohh numerical goals in the same manner as in the federal program.

2:32:37.660 --> 2:32:37.980

Umland, Wystan

Thank you.

2:32:39.350 --> 2:32:44.760

Umland, Wystan

OK, this one we've got a hand raised from Miss Denise.

2:32:44.770 --> 2:32:46.40

Umland, Wystan

Error from Denise Jones.

2:32:46.50 --> 2:32:46.700

Umland, Wystan

Excuse me.

2:32:46.710 --> 2:32:53.330

Umland, Wystan

So, Denise, I will allow your mic and you can unmute when you're ready.

2:32:59.330 --> 2:33:0.440

Denise Jones

This is Denise Jones.

2:33:0.970 --> 2:33:2.900

Denise Jones

My companies do not just associates.

2:33:3.510 --> 2:33:9.650

Denise Jones

We've been MBE, DBE, WBE at a service disabled vet in Massachusetts for well over 30 years.

2:33:11.390 --> 2:33:13.870

Denise Jones

We're having a problem as well because we don't.

2:33:14.470 --> 2:33:22.110

Denise Jones

We haven't been able to get any work in the state and especially I've been trying to get work at the MBTA for well over 20 years.

2:33:23.630 --> 2:33:29.90

Denise Jones

I do work in four other states as a MBE, WBE, DBE doing transit work.

2:33:30.130 --> 2:33:30.630

Denise Jones

But yet.

2:33:31.180 --> 2:33:31.590

Denise Jones

Umm.

2:33:32.360 --> 2:33:36.810

Denise Jones

Probably submitted about 20 bids overtime and haven't gotten any work.

2:33:37.120 --> 2:33:42.420

Denise Jones

How can you help me get work either as a prime or as a sub?

2:33:42.810 --> 2:33:47.650

Denise Jones

I have 25 years of qualification, but yet I still can't get any work in the MBTA.

2:33:50.460 --> 2:33:51.370

Denise Jones

Help me understand.

2:33:51.380 --> 2:33:52.710

Denise Jones

So how can I qualify?

2:33:56.770 --> 2:33:57.110

Denise Jones

Go ahead.

2:33:54.300 --> 2:33:57.130

Tynes, Julian (DOT)

Umm, I have a few questions now.

2:33:57.140 --> 2:34:4.850

Tynes, Julian (DOT)

For most of the bids, do you that you go in on, are you going in as a subcontractor or going?

2:34:3.740 --> 2:34:6.630

Denise Jones

I'm going in as a sub and I've done some as a prime.

2:34:6.760 --> 2:34:7.600

Denise Jones

I can go either way.

2:34:8.560 --> 2:34:13.460

Tynes, Julian (DOT)

OK, now I'm I'm talking specifically about when you went for.

2:34:13.660 --> 2:34:20.560

Tynes, Julian (DOT)

Well, I'll just say that when you go for NB, when you go in as a sub, we don't have control over that.

2:34:20.660 --> 2:34:25.620

Tynes, Julian (DOT)

As you know, the the prime decides who they're going to bring in as a sub, right?

2:34:25.140 --> 2:34:27.60

Denise Jones

Yes, summer were yes.

2:34:27.330 --> 2:34:27.700

Tynes, Julian (DOT)

Yeah.

2:34:27.710 --> 2:34:28.850

Tynes, Julian (DOT)

And so that's an issue.

2:34:29.550 --> 2:34:38.500

Tynes, Julian (DOT)

Ohh, one of the things and I'm not clear for when you're going in as a prime because all of the contractor viewed the same way.

2:34:43.610 --> 2:34:43.950

Denise Jones

Uh-huh.

2:34:38.510 --> 2:34:47.950

Tynes, Julian (DOT)

So I don't know the individual circumstances of the contracts that you may have been on as a prime, what I'm going to do though, let me ask you something.

2:34:48.360 --> 2:34:48.740

Denise Jones

Her head.

2:34:48.770 --> 2:34:52.280

Tynes, Julian (DOT)

Umm do you do any work related to highway?

2:34:55.120 --> 2:35:0.270

Denise Jones

I I was on one contract with the highway, but it was a software.

2:34:59.640 --> 2:35:2.600

Tynes, Julian (DOT)

That's all we need, but there's a reason I'm asking you this.

2:35:1.50 --> 2:35:3.190

Denise Jones

Yeah, I was on one contract with the soft.

2:35:3.330 --> 2:35:3.950

Denise Jones

Yes, I was.

2:35:4.780 --> 2:35:5.290

Tynes, Julian (DOT)

OK.

2:35:5.300 --> 2:35:6.860

Tynes, Julian (DOT)

And there's reason to me asking you this.

2:35:4.920 --> 2:35:7.0

Denise Jones

And that was about to maybe four years ago.

2:35:11.70 --> 2:35:11.230

Denise Jones

Yeah.

2:35:7.910 --> 2:35:30.580

Tynes, Julian (DOT)

I know you're saying why is he asking about this and this could this would be basically free information for any DBE that's on the call, the FHWA part of the program for the DBE program for FHWA programs is something called DB supportive services.

2:35:31.290 --> 2:35:31.820

Denise Jones

Uh umm?

2:35:33.100 --> 2:35:47.170

Tynes, Julian (DOT)

What I would suggest is, well, I'm gonna give you my email and I'm gonna forward you the contact info or the person who had the DB supportive services.

2:35:48.490 --> 2:35:49.490

Tynes, Julian (DOT)

Uh, for.

2:35:44.40 --> 2:35:49.910

Denise Jones

I see.

2:35:50.90 --> 2:35:50.780

Tynes, Julian (DOT)

Ohh.

2:35:51.240 --> 2:35:52.930

Tynes, Julian (DOT)

Office of Diversity and Civil rights.

2:35:52.940 --> 2:35:55.0

Tynes, Julian (DOT)

Her name is Kelly Montero Caesar.

2:35:56.750 --> 2:36:2.360

Denise Jones

Ohh so ohh that's interesting to know we have a civil rights organization now in Massachusetts.

2:36:3.320 --> 2:36:3.490

Tynes, Julian (DOT)

What?

2:36:2.790 --> 2:36:3.790

Denise Jones

This is relatively new.

2:36:7.260 --> 2:36:7.760

Denise Jones

OK.

2:36:7.770 --> 2:36:8.740

Denise Jones

Yeah, officer diverse.

2:36:4.710 --> 2:36:9.480

Tynes, Julian (DOT)

No, the office of Diversity in Civil rights is within Massdot and the MBTA.

2:36:9.620 --> 2:36:11.170

Denise Jones

Uh CEO?

2:36:9.710 --> 2:36:18.920

Tynes, Julian (DOT)

It's not a new organization, but there's other civil rights organizations within the Commonwealth, but and so that will be able to help you.

2:36:19.310 --> 2:36:35.980

Tynes, Julian (DOT)

The other thing is one of the reasons why we're expanding our small business enterprise program is the idea that would more more with more contracts with more small contracts, more opportunities for small businesses.

2:36:36.390 --> 2:36:46.400

Tynes, Julian (DOT)

Even though there is not, for example, when it's a small business, there are small business contract and you can set aside for a small businesses.

2:36:47.400 --> 2:36:47.540

Denise Jones

Yeah.

2:36:46.870 --> 2:36:53.410

Tynes, Julian (DOT)

When you do that, there is no race or gender or race or gender preference.

2:37:10.70 --> 2:37:10.190

Denise Jones

Yes.

2:36:53.420 --> 2:37:19.590

Tynes, Julian (DOT)

It's race and gender neutral, but when it's limited to or when we have it a preference for small businesses, the idea is just like how you said that you are a small business, at least you're competing against other small businesses and so that way you would be for for those programs, for those projects you're contracting directly with the MBTA.

2:37:20.940 --> 2:37:21.280

Denise Jones

Correct.

2:37:21.100 --> 2:37:32.110

Tynes, Julian (DOT)

The advantage to that also if you work with DB supportive services is even through requesting or reviewing the bid.

2:37:32.340 --> 2:37:36.690

Tynes, Julian (DOT)

Even if you don't get it, maybe through the support, would there we can see.

2:37:36.700 --> 2:37:39.500

Tynes, Julian (DOT)

OK, what are the reasons why you're not getting a bit?

2:37:39.960 --> 2:37:41.390

Tynes, Julian (DOT)

It may be different things.

2:37:41.400 --> 2:37:46.520

Tynes, Julian (DOT)

And then from there assist in basically helping people.

2:37:46.800 --> 2:37:58.960

Tynes, Julian (DOT)

If there's a reason that they're not getting it through the agency, doing things to put in those stronger bids or those bids, that will help them win those projects.

2:37:59.90 --> 2:38:18.570

Tynes, Julian (DOT)

So that's another reason why we're really excited about really expanding small business program because we think that for both the federal and the state side, it will offer more opportunities for small businesses and for DB's which are small businesses and minority and women owned businesses.

2:38:18.580 --> 2:38:24.120

Tynes, Julian (DOT)

And in the state side for local businesses, because for state contracts, you can't have a local preference.

2:38:25.380 --> 2:38:36.490

Denise Jones

You know the I I do a lot of work in New York, New Jersey and I'm a my business is been we're based out of Massachusetts but because we can't get work we got work in all the states.

2:38:36.900 --> 2:38:38.130

Denise Jones

So the problem why?

2:38:38.180 --> 2:38:39.470

Denise Jones

Why haven't?

2:38:39.660 --> 2:38:45.630

Denise Jones

Why haven't MBTA adapted, you know, MBE's goals, WBE goals?

2:38:45.680 --> 2:38:46.330

Denise Jones

I know they have.

2:38:46.340 --> 2:39:6.920

Denise Jones

You have some DBE, but you know on on programs that they set aside, you know, projects based by by bid, RFP, they'll say goals for a qualification for DBE, MBE and WBE even on one program they try to meet a uniform set of goals that meet.

2:39:7.10 --> 2:39:12.320

Denise Jones

Massachusetts hasn't adapted to those models yet, and is this because of the diversity?

2:39:12.330 --> 2:39:14.470

Denise Jones

The Diversity study hasn't been done yet.

2:39:15.220 --> 2:39:24.770

Tynes, Julian (DOT)

Well, for Massachusetts as a whole, it's not with that and probably that's the question for the legislature.

2:39:24.820 --> 2:39:33.620

Tynes, Julian (DOT)

So that's beyond umm without knowing from what it sounds like, it sounds like what you're without having specific knowledge.

2:39:33.630 --> 2:39:46.930

Tynes, Julian (DOT)

It sounds like what you're saying is the New York legislature and the government has set goals on certain type of public projects and public spending in Massachusetts.

2:39:48.130 --> 2:39:55.910

Tynes, Julian (DOT)

I don't believe that's the case at this time, and so that would be why Massachusetts doesn't have that overall.

2:39:58.50 --> 2:39:59.800

Umland, Wystan

Thank you, Miss Jones, for your questions.

2:39:59.810 --> 2:40:4.580

Umland, Wystan

Your comments umm this one is from the chat from Timothy.

2:40:6.90 --> 2:40:25.20

Umland, Wystan

When developing the base figure for the DBE goal based on the available DBE firms in the Massachusetts market is relevant to prospective MBTA projects included or is the base figure based on all available DBE firms?

2:40:25.230 --> 2:40:28.130

Umland, Wystan

Whether they provide relevant services or not.

2:40:30.520 --> 2:40:32.300

Tynes, Julian (DOT)

We're looking at relevant services.

2:40:34.540 --> 2:40:43.10

Tynes, Julian (DOT)

Oh well, first of all, most of the services are gonna be relevant because the DB program is a US DOT program.

2:40:44.780 --> 2:40:52.270

Tynes, Julian (DOT)

The next codes the codes in question for DBL debility and for DB work are all transportation related.

2:40:53.650 --> 2:40:55.0

Tynes, Julian (DOT)

So that's the first thing.

2:40:55.10 --> 2:41:0.420

Tynes, Julian (DOT)

So most of the codes, since we're looking at that, they're going to be relevant anyways.

2:41:0.430 --> 2:41:2.550

Tynes, Julian (DOT)

But we're obviously we're looking at.

2:41:4.70 --> 2:41:7.460

Tynes, Julian (DOT)

The relevance to the MBTA work.

2:41:17.360 --> 2:41:18.620

Umland, Wystan

So I'll I'll lump up.

2:41:18.630 --> 2:41:19.270

Umland, Wystan

I'm going through.

2:41:19.280 --> 2:41:26.410

Umland, Wystan

I do see some some questions that are are rather similar or that are more project and payment specific.

2:41:27.80 --> 2:41:50.100

Umland, Wystan

If your questions are project or payment specific, such as if there are issues with payment or what if you're a firm as a a couple who would like to know more about what they can do as far as expediting payment, please feel free to reach out to me directly towards the end of the meeting.

2:41:50.110 --> 2:42:7.480

Umland, Wystan

I will put my email address in the chat and I can answer those project specific questions and payment specific questions either on my own or I will refer you to one of the members of my staff who may be overseeing the project and they can.

2:42:7.530 --> 2:42:8.450

Umland, Wystan

They can address it too.

2:42:9.590 --> 2:42:20.580

Umland, Wystan

So right now we'll just continue to talk about the goal methodology and of course any questions on upcoming projects for Miss McDonough, excuse me.

2:42:25.80 --> 2:42:29.20

Umland, Wystan

So we have, uh, someone with a question, Michelle.

2:42:31.340 --> 2:42:31.610

Umland, Wystan

OK.

2:42:36.400 --> 2:42:37.270

Umland, Wystan

OK, he's gone.

2:42:43.120 --> 2:42:45.730

Umland, Wystan

And back all right.

2:42:48.470 --> 2:42:53.770

Umland, Wystan

Michelle, I am allowing your mic so you can unmute yourself in anytime.

2:42:58.800 --> 2:43:0.790

Meichelle (Guest)

Thank you so much for throwing this meeting.

2:43:0.800 --> 2:43:2.240

Meichelle (Guest)

I I do appreciate it.

2:43:2.670 --> 2:43:5.960

Meichelle (Guest)

Umm, I do have to ask is it possible?

2:43:6.230 --> 2:43:7.600

Meichelle (Guest)

Could you like?

2:43:7.610 --> 2:43:8.330

Meichelle (Guest)

Is it possible?

2:43:9.690 --> 2:43:10.140

Meichelle (Guest)

OK.

2:43:10.650 --> 2:43:12.60

Meichelle (Guest)

I'm just gonna come out and ask.

2:43:12.70 --> 2:43:24.990

Meichelle (Guest)

It does the MBTA engage in in projects where they require real estate services, and if the answer to that question is yes, which I think it is. Umm.

2:43:26.690 --> 2:43:33.760

Meichelle (Guest)

I I think there should be an easier way to like.

2:43:33.770 --> 2:43:44.380

Meichelle (Guest)

Will there ever be a list of services like on the website that people can go to and say, OK, this is the person I talked to about this specific service?

2:43:45.920 --> 2:44:1.380

Meichelle (Guest)

And my second question is, I know it was mentioned earlier that there was a lawsuit filed, Umm, I'm wondering if they'll ever release information for people who go and file these types of lawsuits.

2:44:1.650 --> 2:44:15.920

Meichelle (Guest)

Because if it was filed by a man or by someone who's not an MBE, who stands to gain from us being left out, then I would like to know who this person is, and I think it should be public information.

2:44:15.930 --> 2:44:17.40

Meichelle (Guest)

Who these people are?

2:44:17.110 --> 2:44:25.620

Meichelle (Guest)

Because it seems like every opportunity that would be for women owned businesses that are minorities, we know we're at the bottom of the food chain.

2:44:26.970 --> 2:44:31.600

Meichelle (Guest)

But it seems like every opportunity that would be for us, there's a lawsuit.

2:44:32.740 --> 2:44:40.530

Meichelle (Guest)

So I'd like to know who these people are and and you know, if they're gonna file the suits, they should be.

2:44:40.680 --> 2:44:41.150

Meichelle (Guest)

They should.

2:44:41.160 --> 2:44:55.560

Meichelle (Guest)

Their names and numbers or or names of their organizations should be put on the website because we need to know who these companies are so that we're not in turn supporting their companies while they're excluding us from opportunities.

2:44:58.520 --> 2:45:10.350

Tynes, Julian (DOT)

OK, I would say, well, when somebody files a lawsuit as a public matter of public record unless for some reason there is a protective order.

2:45:10.940 --> 2:45:14.50

Tynes, Julian (DOT)

But I would say that.

2:45:16.600 --> 2:45:36.230

Tynes, Julian (DOT)

The way the laws are written, laws are written to say that ohm cannot discriminate based on race or gender ethnicity, and when it says that it doesn't say it color so on and so forth, it doesn't mean one gender or one race or whatever.

2:45:36.520 --> 2:46:2.150

Tynes, Julian (DOT)

So for example, in my office, I always tell people who work in my office if a white male comes in and says he's being discriminated against because of his race because of his gender, we're to look at it and review the same standard as anyone else because the law has written is neutral on that.

2:46:2.160 --> 2:46:28.510

Tynes, Julian (DOT)

It says you can't do it based on what whichever you are, and so when these people file these when somebody for example files a complaint like that, his argument is I'm being discriminated against because by setting a certain amount aside for a certain group without showing that they're being discriminated against without showing that this is the need you have to do that.

2:46:28.670 --> 2:46:30.20

Tynes, Julian (DOT)

That's unfair to me.

2:46:30.30 --> 2:46:31.230

Tynes, Julian (DOT)

So that's what they're saying.

2:46:32.360 --> 2:46:45.960

Tynes, Julian (DOT)

Ohh and I don't think the purpose is so much to their purpose and I can't speak for them, but I don't think it's so much to cut people out of the marketplace.

2:46:45.970 --> 2:47:8.830

Tynes, Julian (DOT)

I think they're concerned about their company, their interest being unduly burdened because of a rule that or a policy that was put in place without the proper procedures being put in place to make sure that the policy is written is absolutely necessary.

2:47:12.580 --> 2:47:13.110

Umland, Wystan

All right.

2:47:13.120 --> 2:47:15.750

Umland, Wystan

Thank you, Michelle, for your questions.

2:47:16.200 --> 2:47:17.360

Umland, Wystan

Thanks Julie for the answer.

2:47:17.710 --> 2:47:21.820

Umland, Wystan

Ohm, we have a some things from chat.

2:47:22.650 --> 2:47:26.590

Umland, Wystan

Is there a list of naked codes that make up the DBE goal?

2:47:29.170 --> 2:47:29.520

Tynes, Julian (DOT)

In.

2:47:31.810 --> 2:47:36.360

Tynes, Julian (DOT)

Now when you're are you saying for the for the well, I'll put it like this.

2:47:36.420 --> 2:47:39.770

Tynes, Julian (DOT)

For each project, there's a list of mixed codes.

2:47:39.780 --> 2:47:44.570

Tynes, Julian (DOT)

When the project is put out and so that's how the DBE goal part of it is done.

2:47:44.820 --> 2:47:46.90

Tynes, Julian (DOT)

The scopes of work.

2:47:46.280 --> 2:47:49.170

Tynes, Julian (DOT)

How much of the work within those scopes of work?

2:47:49.260 --> 2:47:53.430

Tynes, Julian (DOT)

So for example, something may be out of the total project.

2:47:53.440 --> 2:48:0.110

Tynes, Julian (DOT)

4% of the work may be in a certain area, 7% may be somewhere else, so on and so forth.

2:48:0.220 --> 2:48:5.690

Tynes, Julian (DOT)

Those factors are taken into account when putting in the individual project.

2:48:5.760 --> 2:48:16.570

Tynes, Julian (DOT)

When we're doing this DB goal, what we look at, we look at all of the projects and where those scopes of work are going to be and again, percentage wise, where it's going to be.

2:48:16.720 --> 2:48:25.190

Tynes, Julian (DOT)

So there's going to be some scopes of work that are going to be we don't do it evenly because projects in the work doesn't break down evenly.

2:48:25.200 --> 2:48:34.480

Tynes, Julian (DOT)

So we don't say, for example, there's, I don't remember the slide, but let's say there were five scopes of work and I'm just saying 5 for a reason.

2:48:34.550 --> 2:48:37.400

Tynes, Julian (DOT)

So each scope of work is allocated 20%.

2:48:37.650 --> 2:48:41.560

Tynes, Julian (DOT)

We don't do that because that's not how projects are done.

2:48:41.570 --> 2:48:43.540

Tynes, Julian (DOT)

That's not how the work is done.

2:48:43.710 --> 2:48:45.590

Tynes, Julian (DOT)

So yeah, it is taken into account.

2:48:48.50 --> 2:48:48.410

Umland, Wystan

Thank you.

2:48:49.260 --> 2:48:49.810

Umland, Wystan

Thank you.

2:48:50.440 --> 2:49:6.460

Umland, Wystan

And again, I will reiterate questions relating specifically to the program ohm that apply to individual contracts or things such as good faith efforts maybe beyond the scope of this meeting.

2:49:6.470 --> 2:49:13.510

Umland, Wystan

But feel free to reach out to me or my folks in the office and we can answer those questions questions for you.

2:49:14.470 --> 2:49:15.320

Umland, Wystan

Umm.

2:49:15.600 --> 2:49:21.570

Umland, Wystan

Let's see, we have a question on chat from Kim Ohm.

2:49:21.600 --> 2:49:33.380

Umland, Wystan

As I travel service management company, when you mentioned professional services, does that include travel management or do all of those solicitations fall to combis and not to?

2:49:34.590 --> 2:49:36.160

Umland, Wystan

I'm DBE.

2:49:38.780 --> 2:49:51.630

McDonough, Maureen

So those services would not be part of the professional services that I was Speaking of, Kim, that relate to supporting the capital program that would be through procurement and logistics and part of COMBAS.

2:50:11.700 --> 2:50:24.890

Umland, Wystan

So we have a question from Brian is 4 professional Services GEC task order contracts.

2:50:25.820 --> 2:50:33.50

Umland, Wystan

Does the 22% goal apply to just federally funded task orders or all task orders under the GSEC?

2:50:35.0 --> 2:50:41.920

McDonough, Maureen

So when we issue Brian a GEC, we assume that it is going to be federally funded.

2:50:42.980 --> 2:50:51.270

McDonough, Maureen

That 22% applies to the contract and the ceiling within the contract or the to whatever the goal is.

2:50:51.380 --> 2:50:58.590

McDonough, Maureen

The 22 is proposed, but whenever the triennial goal is we have to set a contract goal and then we set a task order goal.

2:50:58.990 --> 2:51:18.250

McDonough, Maureen

If we had a task order that was not federal money, then we would not have DB Eagle on that task order, but the majority, when we put our GEC's out, the majority of our task orders done under the if not all is considered future federal.

2:51:36.640 --> 2:51:36.930

Umland, Wystan

Hey.

2:51:45.500 --> 2:51:52.660

Umland, Wystan

So we know we have one or two folks with some follow up questions and for follow UPS, just to give anybody else some time to.

2:51:54.380 --> 2:51:56.810

Umland, Wystan

Ask their questions or to put something in the chat.

2:51:57.160 --> 2:52:7.810

Umland, Wystan

If you've already asked a question, have follow-ups, please send them to [db@mbta.com](mailto:db@mbta.com) and we will answer all follow-ups through there.

2:52:7.820 --> 2:52:18.780

Umland, Wystan

And again, that's just to give other folks who may not have asked questions or are busy typing things into chat chance to say things and we will respond to you right then.

2:52:21.60 --> 2:52:22.190

Umland, Wystan

So we're not ignoring you.

2:52:22.380 --> 2:52:23.390

Umland, Wystan

I'm gonna quit that.

2:52:23.500 --> 2:52:28.430

Umland, Wystan

I put that again into the chat and the Maryland has had the slide up right here.

2:52:28.500 --> 2:52:36.300

Umland, Wystan

So again, additional questions, comments DBE at mbta.com and we'll we'll get to it again.

2:52:36.310 --> 2:52:43.210

Umland, Wystan

As I've mentioned, for project specific, I'll put my email address in at the end so you can reach out to me.

2:52:51.380 --> 2:52:51.930

Umland, Wystan

OK.

2:52:59.10 --> 2:52:59.200

Umland, Wystan

You know.

2:53:10.190 --> 2:53:10.920

Umland, Wystan

Anything.

2:53:10.930 --> 2:53:11.720

Umland, Wystan

Anything else?

2:53:11.730 --> 2:53:12.800

Umland, Wystan

Any any more questions?

2:53:14.300 --> 2:53:14.760

Umland, Wystan

Umm.

2:53:15.300 --> 2:53:17.920

Umland, Wystan

Pertaining to how we establish the new goal.

2:53:39.830 --> 2:53:40.10

Umland, Wystan

OK.

2:53:43.130 --> 2:53:46.580

Umland, Wystan

For the Ed, will IT services be included?

2:53:49.350 --> 2:53:49.900

Umland, Wystan  
Evie.

2:53:49.910 --> 2:53:53.260

Umland, Wystan  
Were they included in the goal calculation?

2:53:53.990 --> 2:53:54.930

Umland, Wystan  
Is a is that?

2:53:55.90 --> 2:53:55.860

Umland, Wystan  
Is that your question?

2:53:57.680 --> 2:53:58.870

Umland, Wystan  
Yes, we're I.

2:53:58.920 --> 2:54:1.930

Umland, Wystan  
So we're IT services, including in the goal calculation.

2:54:9.20 --> 2:54:21.230

Tynes, Julian (DOT)  
If any scope of work that would be that we project would be in our projects would have been included in the gold calculation.

2:54:22.390 --> 2:54:30.410

Tynes, Julian (DOT)  
I believe that when we listed on one of the slides where it listed the scopes, various scopes of work, I believe IT or may have been listed.

2:54:30.630 --> 2:54:47.110

Tynes, Julian (DOT)  
But yes, if there were IT services and we speculate that IT services will be needed, which we would have speculated that over three year period that there would be some IT services needed that might probably be in technology where IT would be.

2:54:47.670 --> 2:54:52.90

Tynes, Julian (DOT)  
But so yes, that would be taken into account IT services.

2:54:57.110 --> 2:54:57.730

Umland, Wystan  
You are welcome.

2:55:11.410 --> 2:55:17.310

Umland, Wystan

Carla, if I have a question about a specific or IP, should I contact DBE at mbta.com?

2:55:20.780 --> 2:55:20.870

Umland, Wystan

I.

2:55:21.880 --> 2:55:22.520

McDonough, Maureen

I would.

2:55:23.660 --> 2:55:25.690

McDonough, Maureen

I probably think no.

2:55:25.900 --> 2:55:31.630

McDonough, Maureen

So typically when we cause, then Whiston will just refer it to me anyway.

2:55:31.640 --> 2:55:41.490

McDonough, Maureen

So I think typically when we if it's advertised, there should be then email that you can send your questions to.

2:55:41.500 --> 2:55:44.370

McDonough, Maureen

We usually put in the solicitations of the advertisements.

2:55:44.380 --> 2:55:50.380

McDonough, Maureen

If it's not, then please feel free to send your question to me and I will try to answer it.

2:55:54.550 --> 2:55:58.300

McDonough, Maureen

Listen, you can add my email at the end as well.

2:55:59.250 --> 2:55:59.900

Umland, Wystan

Will do.

2:55:59.910 --> 2:56:00.550

Umland, Wystan

Thank you, Maureen.

2:56:01.260 --> 2:56:01.510

McDonough, Maureen

Who are?

2:56:3.200 --> 2:56:4.280

Umland, Wystan

And your role from Carla.

2:56:4.290 --> 2:56:5.140

Umland, Wystan

Thank you for the question.

2:56:25.840 --> 2:56:26.10

Umland, Wystan

OK.

2:56:30.670 --> 2:56:37.10

Umland, Wystan

One is from Jason will all MBTA projects with federal funds be listed on combines?

2:56:40.70 --> 2:56:45.160

McDonough, Maureen

No, not all of our projects are listed on our capital projects.

2:56:45.390 --> 2:56:48.630

McDonough, Maureen

Our solicitations, they're not all listed on combis.

2:57:29.510 --> 2:57:47.10

Umland, Wystan

Again, ohm questions regarding uh, OCR and our actions on projects, especially when it comes to managing or enforcement of our DBE compliance on projects, feel free to reach out to me directly.

2:57:48.110 --> 2:57:51.210

Umland, Wystan

And I am putting my address in now.

2:57:54.420 --> 2:57:56.730

Umland, Wystan

And I'm happy to go over.

2:57:56.840 --> 2:57:57.270

Umland, Wystan

Uh.

2:57:57.280 --> 2:57:59.50

Umland, Wystan

What MBTA does?

2:57:59.60 --> 2:57:59.310

Umland, Wystan

Uh.

2:57:59.320 --> 2:58:5.40

Umland, Wystan

However, anybody interested in knowing more about how our program?

2:58:6.340 --> 2:58:10.260

Umland, Wystan

Works, operates and relates to programs.

2:58:10.270 --> 2:58:12.590

Umland, Wystan

I do urge you to visit our website.

2:58:13.20 --> 2:58:43.220

Umland, Wystan

It's [www.mbta.com](http://www.mbta.com) DBE where you can find the Mtas disadvantaged business program, enterprise plan or DBE plan there and that outlines our processes, our rules, what somebody can expect either a prime or a DBE sub or a non DB sub working on our projects can expect and who to contact.

2:58:43.550 --> 2:58:51.50

Umland, Wystan

And then basically what we do for them and what we expect of them.

2:58:52.0 --> 2:58:54.870

Umland, Wystan

So thank you, Marilyn.

2:59:55.300 --> 2:59:55.530

Umland, Wystan

OK.

3:0:22.920 --> 3:0:23.990

Umland, Wystan

Thank you, Josephina.

3:0:24.220 --> 3:0:30.190

Umland, Wystan

We're we're glad that uh you enjoyed the meeting and learned a little bit.

3:0:54.930 --> 3:0:55.830

Umland, Wystan

Very welcome, Michelle.

3:0:57.900 --> 3:0:58.670

Umland, Wystan

You're welcome, John.

3:1:25.640 --> 3:1:26.420

Umland, Wystan

You're welcome, Barbara.

3:1:39.0 --> 3:1:39.730

Umland, Wystan  
Thank you, Carl.

3:1:39.740 --> 3:1:39.980

Umland, Wystan  
You too.

3:2:19.980 --> 3:2:28.400

McDonough, Maureen  
The wisdom, as we're winding down here, I'd just like to say thank you to everyone who participated in for the great questions. Appreciate.

3:2:30.380 --> 3:2:31.350

Umland, Wystan  
Ohh likewise.

3:2:31.440 --> 3:2:32.630

Umland, Wystan  
Yes, good point.

3:2:32.640 --> 3:2:33.630

Umland, Wystan  
Thank you, marine.

3:2:33.640 --> 3:2:34.150

Umland, Wystan  
One of that.

3:2:34.160 --> 3:2:35.30

Umland, Wystan  
Thank you everybody.

3:2:35.910 --> 3:2:36.310

Tynes, Julian (DOT)  
Yes.

3:2:36.240 --> 3:2:45.260

Umland, Wystan  
A copy of the presentation is available or will be definitely in the next hour or so on the disadvantaged business enterprise page.

3:2:45.730 --> 3:2:56.620

Umland, Wystan  
Ohm on mbta.com so you will find a copy of the slide show and we will have a recording up with the next 5 days as mentioned before.

3:2:57.920 --> 3:3:14.820

Tynes, Julian (DOT)

And we do look forward to receiving not only your questions, but also your comments and any other information that we should consider before we submit the final DBE goal.

3:3:15.90 --> 3:3:19.470

Tynes, Julian (DOT)

Trying new goal and so that's a very important.

3:3:19.480 --> 3:3:21.800

Tynes, Julian (DOT)

This is a very important part of the process.

3:3:21.810 --> 3:3:26.200

Tynes, Julian (DOT)

The public outreach, the public comments, very important part of the process.

3:3:26.210 --> 3:3:29.760

Tynes, Julian (DOT)

So again, I wanna thank you all so much for attending.

3:3:30.110 --> 3:3:32.400

Tynes, Julian (DOT)

Thank you for your questions and for your comments.

3:3:46.540 --> 3:3:47.370

McDonough, Maureen

Thanks everyone.

3:3:47.980 --> 3:3:48.200

Umland, Wytan

Yep.

3:3:47.380 --> 3:3:48.260

McDonough, Maureen

Enjoy your day.

3:3:49.30 --> 3:3:50.200

Umland, Wytan

Alright, we'll end it.

3:3:51.360 --> 3:3:52.420

Umland, Wytan

Yeah, have a good one.

# MBTA Disadvantaged Business Enterprise (DBE) Triennial Goal Methodology Review

**DATE:**

**Tuesday June 13, 2023  
10:00 am - 12:00 pm**

**LOCATION:**

**Virtual Public Meeting**

**REGISTER:**

**MBTA.com/events for details**

Join the MBTA to review the Overall Triennial DBE Goal Setting Rationale and Methodology for federal fiscal years 2024-2026.

Please join the MBTA Office of Diversity and Civil Rights to discuss the upcoming triennial Disadvantaged Business Enterprise goal methodology on Tuesday, June 13th from 10am to 12pm.

During the meeting, attendees will have the opportunity to ask questions and provide comments.

To learn more and sign up for the meeting visit: [www.mbta.com/events](http://www.mbta.com/events)

**Building a better T.**

## **ACCOMMODATIONS:**

These meetings are accessible to people with disabilities and those with limited English proficiency. Accessibility accommodations and language services will be provided free of charge, upon request, as available. Such services include documents in alternate formats, translated materials, assistive listening devices, and interpreters (including American Sign Language). For accommodation or language assistance, please contact MBTA/MassDOT's Chief Diversity and Civil Rights Officer by phone (857-368-8580), fax (857-368-0602), TTD/TTY (857-368-0603) or by email at [MASSDOT.CivilRights@dot.state.ma.us](mailto:MASSDOT.CivilRights@dot.state.ma.us)

# Proposed Triennial DBE Goal

**Please join us!  
Virtual Public  
Information  
Meeting**

**VIRTUAL PUBLIC MEETING  
(MS TEAMS WEBINAR)**

**Tuesday,  
June 13, 2023  
10:00 am - 12:00 pm**

**WEBINAR TOPIC  
Proposed  
Triennial DBE Goal**

**REGISTER IN ADVANCE**

Join the MBTA to review the Overall Triennial DBE Goal Setting Rationale and Methodology for federal fiscal years 2024-2026.

You will also hear about upcoming MBTA contract opportunities (professional services, construction, materials, consulting).

During the meeting, attendees will have the opportunity to ask questions and provide comments.

To learn more and sign up for the meeting visit:

[www.mbta.com/events](http://www.mbta.com/events)

## **EXHIBIT D**

### **Massachusetts Bay Transportation Authority Public Notice of FFY 2024 - 2026 Triennial Disadvantaged Business Enterprise (DBE) Goal**

In accordance with the U.S. Department of Transportation requirements set forth in 49 CFR Part 26, the Massachusetts Bay Transportation Authority (MBTA) hereby notifies the public that it is recommending a Disadvantaged Business Enterprise (DBE) Triennial Goal. The Triennial Goal represents the percentage of work to be accomplished by DBE prime contractors, subcontractors, consultants, vendors, and material suppliers for professional services, construction, and procurement contracts on federal-aid transit projects and grants during the Federal Fiscal Years of 2024-2026. The Triennial Period begins October 1, 2023, and ends September 30, 2026. The proposed Triennial DBE Goal for FFY 2024-2026 is 22%. The DBE Goal Methodology, all information pertaining to this goal, and a description of how it was selected are available at [www.MBTA.com/DBE](http://www.MBTA.com/DBE) for 45 calendar days following the publication of this notice. Written comments on this goal will be accepted for 45 calendar days from the date of publication of this notice. The comments are for informational purposes only and may be sent to the MBTA Office of Diversity and Civil Rights (ODCR) at [db@mbta.com](mailto:db@mbta.com).

Massachusetts Bay Transportation Authority (MBTA) will consider every request for reasonable accommodation to provide:

- Language interpretation for people with limited English proficiency (LEP), and
- Translations of written material necessary to access MBTA programs and information.
- Appropriate provisions will be considered when MBTA is notified at least 15 days prior to the date the written comments are due.

## **MBTA Triennial Goal Setting Public Engagement Meeting**

# AGENDA

## Triennial Goal Setting

- **Disadvantaged Business Enterprise (DBE) Program**
  - **Background**
  - **Highlights**
  - **Objectives**
  - **Program Requirements**
  - **Goal Setting Methodology and Rationale**
  - **Proposed DBE Triennial Goal**
- **DBE Program Opportunities**
- **Questions & Comments**

# BACKGROUND

- **As a recipient of federal funds, Massachusetts Bay Transportation Authority (MBTA) is required to have a DBE program for its federally-funded projects**
- **The DBE Program only applies to federally-funded projects**

# DBE Program Highlights

- **Conforms with regulations of the U.S. Department of Transportation (DOT), 49 Code of Federal Regulations (CFR) Part 26**
- **Ensures the administration, monitoring and implementation requirements set forth in 49 CFR Part 26**
- **Utilizes a Triennial (3-year) DBE goal to achieve DBE participation for federally-funded projects**

# DBE Program Objectives

- **Create “level playing field” for expected DBE participation**
- **Goals must be clearly tied to and narrowly tailored to local market**
- **Recipients can use contract-specific goals based on identified opportunities and DBE availability to meet the Triennial goal**
- **Quotas or set-asides are not allowed based on race/gender**

# DBE Program Objectives (cont'd)

- **The Triennial DBE Goal will be established for MBTA for federally funded projects for federal fiscal years (FFY) 2024 - 2026**
- **The DBE Program reporting period corresponds with the FFY (October 1 – September 30)**
- **A narrowly tailored contract-specific goal setting process will be used on a contract-by-contract basis**

# Required Publication of Triennial Goal

- Notice placed on MBTA Website: **June 13, 2023**
- Notification to Public (through local organizations and media): **June 13, 2023**
- 45-day Review and Comment Period
  - **June 13, 2023 – July 27, 2023**
- **August 1st** deadline for submitting DBE goal

# Triennial DBE Goal Setting Methodology

# Establishing Triennial DBE Goal

## Projection of federal funds:

- Identify broad categories of contracting, supplies, and services opportunities for the upcoming 3-year period (2024-2026), excluding transit vehicle procurements (TVM)
  - Guideway, Signal, and Power
  - Passenger Facilities
  - Maintenance & Administrative Facilities
  - Bridges & Tunnels
  - Technology & Innovation
  - Business & Operational Support
- Identify ready, willing, and available DBEs, potential DBEs, and non-DBEs in the Commonwealth of

# Massachusetts

# Establishing Triennial DBE Goal Step One

- Step One: Base Figure
  - Calculate relative availability of DBEs - establishing the “Base Figure”
  - MBTA utilized the Massachusetts Unified Certification Program (UCP) Directory divided by the United States (U.S.) Census data for Massachusetts firms

**Base Figure Availability = 18.91%**

# Establishing Triennial DBE Goal Step Two

## Adjustments to the Base Figure

- Step Two: Further adjustments to the Base Figure

Adjust the base figure to account for other evidence, including local market conditions and types of work on federally-funded projects:

- Adding the number of “prospective” (MWBE) DBEs in the Commonwealth of Massachusetts area, according to Supplier Diversity Office (SDO) increases the base figure availability to 39.01%
- Substantial completion of the GLX program
- Anticipated projects for Federal Fiscal Years (FFY) 2024-2026
- Discussions with stakeholders, including DBEs

# Factors Considered

- **Local market area for MBTA and availability of DBEs currently working.**
- **MWBEs capable of working who may not currently be certified as DBEs in Massachusetts as registered with the SDO are considered in adjustments.**
- **Historical data on past participation of DBEs on similar MBTA Projects**

# Factors Considered (cont'd)

- **The availability of ready, willing and able certified DBEs capable of participating by potential subcontracting elements;**
- **The scopes of work required to be performed during the upcoming Triennial period, including the budget;**
- **The realistic assessment of available DBE firms to participate in the subcontracted activity for the procurement by North American Industry Classification System (NAICS) code eligibility.**

# Total Actual DBE Participation

- The MBTA has demonstrated estimated average past participation levels of 20% during the 2021-2023 Triennial Period.
- The FFY 2021-2023 goal is 20%.
- When 20% past participation is averaged with the 39.01% base figure, the resulting goal is 29.5%.
- With the intent of leading the marketplace, continuing to build the program, and considering the previous goal, the recommended goal is 22%

# **Estimated Race/Gender-Neutral and Race/Gender-Conscious Participation**

- **Under USDOT regulations, MBTA must meet the DBE participation goal using narrowly tailored means that do not unduly burden non-DBEs.**
- **To fulfill this obligation, MBTA is required to achieve the DBE participation goal to the greatest extent possible through the use of race/gender-neutral means.**
- **Race/gender-conscious means may be used only to the extent needed to meet whatever portion of the DBE participation goal that cannot be met through race/gender-neutral means.**

# Triennial DBE Goal

In accordance with USDOT regulation 49 CFR Part 26, MBTA has established a goal of awarding 22% of the value of federally-funded contracts to DBEs during FFYs 2024-2026 (exclusive of FTA funds to be used for the purchase of transit vehicles).

18% of the goal will be race/gender-conscious, and 4% race/gender-neutral.

The projected total Federal assistance contracts for the FFY Triennial period 2024-2026 will be an estimated \$1,841,567,043.

MBTA projects that DBEs will be awarded contracts and subcontracts valued in excess of an estimated \$405,144,749.

Questions and comments on the Triennial DBE Goal can be submitted to [dbe@mbta.com](mailto:dbe@mbta.com).
